The outer ring of the seal contains the text "OFFICE OF THE COMPTROLLER" at the top and "TEXAS" at the bottom, separated by two smaller stars.

A Report on
Occupational Licenses
Required by the
State of Texas

December 2022

December 29, 2022

The Honorable Greg Abbott, Governor
The Honorable Dan Patrick, Lieutenant Governor
The Honorable Dade Phelan, Speaker of the House
Members of the 87th Legislature

Ladies and Gentlemen:

I am pleased to present my report on occupational licenses, as required by Texas Government Code Section 403.03058. Data received are from each state entity's response to our request for information and are reflected as submitted in Exhibits 1 and 2.

This statutory report seeks to provide the Legislature with information regarding all occupational licenses (including permits, certifications and registrations) required by the state, as well as a list of statutory provisions regulating occupational licenses that were abolished during the previous legislative session.

We received 802 license types administered by 45 state entities. Three state entities reported 26 statutory provisions regulating occupational licenses that were abolished during the 87th (2021) legislative session.

If you have any comments or suggestions, please contact Jamie Falconnier at Jamie.Falconnier@cpa.texas.gov.

Sincerely,

A handwritten signature in black ink that reads "Glenn Hegar". The signature is fluid and cursive, with the first name "Glenn" written in a large, sweeping script and the last name "Hegar" in a more compact, cursive style.

A Report on Occupational Licenses Required by the State of Texas

Introduction

Texas Government Code Section 403.03058 (Senate Bill 2065, enacted in 2017) requires the Texas Comptroller of Public Accounts to prepare and submit to the Legislature a report regarding all occupational licenses, including permits, certifications and registrations, required by the state.

Statute requires for each license type:

- a description of the license;
- the department with regulatory authority for the license;
- the number of active licenses;
- the cost of an initial application for the license and for a renewal of the license; and
- the amount of state revenue generated from the issuance and renewal of the license.

A list of statutory provisions requiring a license that were abolished during the previous legislative session is also required.

Methodology

To comply with the requirements of the law, the Comptroller's office contacted state licensing entities beginning in February 2022. Entities responded using a Comptroller-generated form.

Each licensing entity was asked to report:

- the name of each occupational, professional and business license under its regulatory authority, including permits, certifications and registrations;
- a description of the authority of the license holder, including any limitations;
- the number of active licenses, which may include licenses that have expired but are eligible for renewal

- fees for the initial application and renewal for the license, which may include application, examination and professional fees required of each applicant or license holder;
- the renewal frequency of the license; and
- the amount of state revenue generated from the issuance and renewal of the license, which may include fees that cannot be separated from licensing fees (e.g., corrective action fees or fees for a change of name or location on the license).

All surveyed state entities were asked to report data for each license type to the Comptroller as of the end of fiscal 2021 (**Exhibit 1**).

State entities were also asked to list any statutory provision including any license under their regulatory authority that was abolished by the 87th (2021) Legislature and the name of the license (**Exhibit 2**).

The Comptroller recorded entity responses as received and did not verify the information reported.

Results

The Comptroller's office received 802 license types from 45 state entities (**Exhibit 1**). The Texas Department of Licensing and Regulation submitted the highest number of licenses (228 license types) followed by the Texas Racing Commission and the Texas Department of Insurance, which submitted 54 and 53 license types, respectively.

Unless otherwise noted, data for each license — including the entity with administrative authority over the license — are as of the end of fiscal 2021. Due to database limitations, several agencies were unable to provide the number of active licenses and/or state revenue for each

license type as of the end of fiscal 2021. This report does not provide a sum for either data point.

Of the 45 state entities that reported, seven are self-directed, semi-independent agencies (SDSIs) and two are quasi-governmental agencies. The revenue generated from the issuance and renewal of the licenses under their

regulatory authority is not deposited into the state treasury and, therefore, not available for appropriation by the Legislature.

Three entities reported 26 licenses that were abolished during the 87th (2021) Legislature and their corresponding statutory provisions (**Exhibit 2**).

Texas Secretary of State (SOS), Agency Number 307

The Texas Secretary of State does not have an immediate way to see how many licenses were active within a given time frame. With this in mind, the following methodology was used when calculating the data: a) When a license is renewed annually, the total number of licenses was calculated based on the number of times SOS charged for the filing during FY21 - this is believed to give the most accurate representation of how many licenses were active at the end of FY21. b) For licenses that are not renewed annually, SOS pulled the total number of active licenses from the most recently available data - in most cases, this meant data accurate as of mid-May 2022.

Athlete Agents	Registration with the SOS authorizes an athlete agent to recruit or solicit an athlete to enter into an agent contract, a financial services contract or a professional sports services contract. State law requires the SOS to regulate the activities of an athlete agent.	119	\$500.00	\$500.00	Annual	\$59,500.00	
Auto Clubs	To operate as an automobile club in Texas, the auto club must obtain a certificate of authority from the SOS.	42	\$150.00	\$150.00	Annual	\$6,300.00	The registration expires annually on Aug. 31 and must be renewed. The auto club must provide proof of \$25,000 in security. The SOS has the authority to revoke or suspend an auto club's certificate of authority.
Auto Club Agents	Auto Clubs are required to file a notice of appointment of an agent with the SOS. Agents must be of good moral character.	9,067	\$10.00	\$10.00	Annual	\$90,670.00
