

Glenn Hegar Texas Comptroller of Public Accounts

Annual Financial Report

For the Year Ended August 31, 2019

November 20, 2019

The Honorable Greg Abbott, Governor
Lisa Collier, CPA, CIDA, First Assistant State Auditor
Legislative Budget Board

Ladies and Gentlemen:

We are pleased to submit the *Annual Financial Report* for the Comptroller of Public Accounts, the Comptroller's Judiciary Section, the Comptroller's Fiscal Programs, the Comptroller's Treasury Operations Fiscal Agency, the Texas Bullion Depository, the Texas Safekeeping Trust Company and the State Energy Conservation Office for the year ended Aug. 31, 2019, in compliance with Texas Government Code, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Shari Curtis, manager of our Budget and Internal Accounting Division, at shari.curtis@cpa.texas.gov or 512-463-4771.

Sincerely,

Glenn Hegar

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller of Public Accounts is an agency of the state of Texas.

The Comptroller's financial records comply with state statutes and regulations. This includes compliance with the Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies.

The Comptroller's office has three major statutory duties. First, the Comptroller serves as the state's primary tax collector, responsible for collecting most major state taxes. Second, the Comptroller is the state's chief accountant, responsible for writing the state's checks and monitoring all spending by state agencies. Third, the Comptroller is the state's official revenue estimator, responsible for issuing an estimate of state revenues over the upcoming two-year budget period.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the state's *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

This section of the report includes only those funds and accounts from which the Comptroller's own departmental activities are financed. The fiscal functions of the Comptroller's office are reported in separate sections of this report.

There are no component units in which the Comptroller of Public Accounts is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES AND GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Revenue Fund

The General Revenue Fund (Fund 0001) is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those required to be accounted for in another fund.

General Revenue-Dedicated Sexual Assault Program Fund

The General Revenue-Dedicated (Fund 5010) was created to receive community parole supervision and probation fees collected under Art. 42.12 19(e) Code of Criminal Procedures and the 508.189 Government Code, and is administered by the Texas Office of Attorney General to finance Ch. 420 grant programs. In the fiscal 2018-2019 biennium, funds were appropriated to the Comptroller of Public Accounts for the purpose of increasing compliance and enforcement of the collection of admission fees to certain sexually-oriented businesses, pursuant to Section 102.052, of the Business and Commerce Code. The appropriation of funds for this program ended at the close of fiscal year 2019.

Capital Assets Adjustment Fund Type

The Capital Assets Adjustment Fund (Fund 9998) is used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment Fund (Fund 9997) is used to convert governmental fund types' debt from modified accrual to full accrual.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to report resources held by the agency on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment and remittance of fiduciary resources to individuals, private organizations or other governments. They are as follows: Unappropriated General Revenue (Fund 1000), Direct Deposit Correction Account (Fund 0980), Departmental Suspense (Fund 0900), Statewide Procurement Division (SPD) Postage (Fund 0999) and Child Support Employee Deductions (Fund 8070). SPD Postage (Fund 0999) consists of funds held for other state agencies for prepaid postage.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The state of Texas considers receivables collected within 60 days after fiscal year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that build the government-wide financial statements are accounted for using the full accrual basis of accounting. The activity that is recognized in these fund types is as follows: capital assets, accumulated depreciation/amortization and unpaid employee compensable leave.

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods. The Comptroller of Public Accounts has authority to retain unexpended balances for use in future periods.

ASSETS, LIABILITIES AND FUND BALANCES/NET POSITION

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Current Receivables – Accounts Receivable

This account appears in governmental fund types and includes year-end revenue accruals.

Inventories

Consumable inventories include supplies and postage on hand at year-end. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Tangible Assets

Tangible assets include assets such as furniture, fixtures, equipment and vehicles. Tangible assets with an initial individual unit cost of \$5,000 or more and an estimated useful life that meets or exceeds one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair market value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures.

Depreciation is reported on all “exhaustible” assets. Tangible assets are depreciated over the estimated useful life of the asset using the straight line method. Assets such as works of art or historical treasures are considered “inexhaustible” and are not depreciated.

Intangible Assets

Intangible assets include assets such as purchased or developed software. These are assets that lack physical substance, are nonfinancial in nature and have an estimated useful life of one year or greater.

Internally generated computer software with a total development cost of \$1,000,000 or greater is capitalized. Purchased computer software is capitalized, if the aggregate cost of the software purchased meets or exceeds \$100,000.

Intangible software assets are amortized on an annual basis over the estimated useful life of the software using a straight line method.

Intangible software assets are reported in accordance with GASB Statement 51, *Accounting and Financial Reporting for Intangible Assets*.

LIABILITIES

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes due upon the occurrence of relevant events such as resignations, retirements and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

FUND BALANCE/NET POSITION

Fund balance is the difference between fund assets and liabilities on the governmental fund statements. Net position is the difference between fund assets and liabilities on the government-wide fund statements.

Fund Balance Components

The fund balance amounts for governmental funds are classified as nonspendable, and unassigned in the fund financial statements.

- Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact. The nonspendable fund balance for this purpose represents the amount of supplies, postage and prepaid assets held to be used in the next fiscal year.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund. This represents funds that can be carried forward for future operations.

UNAUDITED
Comptroller of Public Accounts (304)

Net Investment in Capital Assets

Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bond, notes and other debt, that are attributed to the acquisition, construction or improvement of those assets.

INTERFUND ACTIVITIES AND TRANSACTIONS

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

The Comptroller's office has the following types of transactions between funds/agencies:

- Due From Other Agencies
- Transfers In
- Transfers Out
- Interfund Receivables and Interfund Payables

The composition of the agency's interfund receivable and payable activities and balances is presented in Note 12.

NOTE 2: Capital Assets

Revenue received from the sale of surplus property has been transferred to unappropriated general revenue in accordance with HB 7, Section 20.

A summary of changes in capital assets for the year ended Aug. 31, 2019, is presented below:

NOTE 3: Deposits, Investments and Repurchase Agreements

The Comptroller of Public Accounts is authorized by statute to make investments following the “prudent person rule.” There were no significant violations of legal provisions during the period.

Deposits of Cash in Bank

As of Aug. 31, 2019, the carrying amount of deposits was \$35,000, as presented below:

GOVERNMENTAL AND BUSINESS TYPE ACTIVITIES	
Cash In Bank – Carrying Amount	\$ 35,000.00
Total Cash in Bank, per AFR, (Exhibit I)	<u>\$ 35,000.00</u>

The carrying amount of \$35,000 for Cash in Bank represents the Comptroller’s travel advance fund. This amount consists of all cash in local banks. This amount is included on the combined balance sheet/statement of net position as part of the “cash and cash equivalents.”

NOTE 4: Short-Term Debt

(Not Applicable)

NOTE 5: Long-Term Liabilities

Changes in Long-Term Liabilities

During the year ended Aug. 31, 2019, the following changes occurred in liabilities reported in the general long-term liability account group:

Governmental Activities	Balance Sept. 1, 2018	Additions	Reductions	Balance Aug. 31, 2019	Amounts Due Within One Year	Thereafter
Employees' Compensable Leave	\$ 18,995,673.69	\$ 19,355,968.12	\$ (18,140,206.18)	\$ 20,211,435.63	\$ 12,112,584.08	\$ 8,098,851.55

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee’s resignation, dismissal or separation from state employment, provided the employee has had continuous employment with the state for at least six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is paid from the same funding source from which the employee’s salary or wage compensation was paid.

NOTE 17: Risk Management

The Comptroller of Public Accounts is exposed to civil claims resulting from the performance of its duties. It is agency policy to periodically assess potential risks to which it may be exposed.

The agency assumes substantially all risks associated with tort and liability claims due to the performance of its duties.

Liabilities are reported when it is both probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

The agency’s claim and judgement liability activity at Aug. 31, 2019, is as follows:

Fiscal Year	Beginning Balance	Increases	Decreases	Ending Balance
2019	\$ 0.00	\$ 4,748.30	\$ (4,748.30)	\$ 0.00
2018	\$ 0.00	\$ 0.00	\$ 0.00	\$ 0.00

NOTE 18: Management’s Discussion and Analysis

No material accounting events occurred at the Comptroller of Public Accounts for fiscal year 2019.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller's Judiciary Section is an agency of the state of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements for Annual Financial Reports of State Agencies.

The Comptroller's Judiciary Section is responsible for paying the salaries of the district judges and district attorneys of Texas. The agency also pays miscellaneous expenses incurred by the judges and district attorneys as provided by the General Appropriations Act.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the state's *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the Comptroller's Judiciary Section is financially accountable or any organization whose exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES

General Fund

The General Revenue Fund (Fund 0001) is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes.

The Felony Prosecutor Supplement (Fund 0303)

The fund receives two-thirds of a \$15 fee paid by each surety posting a bail bond to fund longevity supplements for eligible assistant prosecutors. The remaining one-third is deposited to the GR Account — Fair Defense Fund.

The Judicial Fund (Fund 0573)

Used only for court-related purposes in support of the judicial branch of the state, including child support, court management and basic legal services for the indigent.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to report resources held by the agency on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations or other governments. They are as follows: Unappropriated General Revenue (Fund 0001), Departmental Suspense (Fund 0900), Direct Deposit Correction Fund (Fund 0980) and Child Support Employee Deductions (Fund 8070).

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that will build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The state of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

ASSETS, LIABILITIES, AND FUND BALANCES/NET POSITION

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

FUND BALANCE/NET POSITION

Fund balance is the difference between fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements.

Fund Balance Components

The fund balance amounts for governmental funds are classified as committed and unassigned in the fund financial statements.

- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

INTERFUND ACTIVITIES AND TRANSACTIONS

Interfund transaction refers to interactions with legally separate entities such as other state agencies and is restricted to external events. The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer.

The Comptroller's Judiciary Section has the following types of transactions between funds/agencies:

- Due From Other Agencies
- Transfers In
- Transfers Out

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller – Fiscal is an agency of the state of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements for Annual Financial Reports of State Agencies.

This report applies to those funds, which the Comptroller of Public Accounts is statutorily required to expend, transfer, allocate or administer as trustee. Included are the funds and accounts over which the Comptroller exercises statutory administrative control, which includes revenues, collected for the benefit of others. The operating activity of the Comptroller of Public Accounts (Agency 304) is included in a separate section of this report.

There are no component units in which the Comptroller – Fiscal is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the significant changes related to Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the state’s *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

GOVERNMENTAL FUND TYPES AND GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Fund

The General Fund is used to account for all financial resources of the state except those that must be accounted for in another fund. Listed below are the agency’s General Funds and their purpose.

General Revenue Fund 0001 – To receive those revenues directed to be deposited to the General Revenue Fund and those revenues for which a specific fund has not been designated; such revenues to be used as the Constitution prescribes and the Legislature directs.

County and Road District Highway Fund 0057 – To take care of outstanding county and road district indebtedness assumed by the State along with the highway system. The Fund also receives allocation of gasoline taxes up to \$7.3 million each fiscal year, which in turn is distributed to the counties of the State.

Law Enforcement Officer Standards and Education Fund 0116 – To receive court costs collected from defendants convicted under certain sections of the Penal Code.

Compensation to Victims of Crime Auxiliary Fund 0494 – This is used only for the payment of compensation to claimants under the Victims of Crime Act.

Economic Stabilization Fund 0599 – To receive transfer of one-half of any unencumbered positive balance in the General Revenue Fund (0001) as of the last day of the preceding biennium, at least one-half of an amount equal to 37.5 percent of excess oil and gas production taxes received in fiscal year 1987, and any other money appropriated to the fund by the legislature. The fund may be used to eliminate temporary cash deficiency in the General Revenue Fund (0001).

License Plate Trust Fund 0802 – Used for deposit of specialty license plate fees and related revenue collected under Subchapter G, Transportation Code. Dedicated balances and revenues are to be deposited into accounts within the fund to be used in accordance with their specific statutory purpose.

Events Trust Fund for Municipality/County Fund 0830 – If an event plan is approved and a host community is selected as the site of a special event, the comptroller shall deposit the amount requested in the special event plan from state tax receipts as soon as practicable after the taxes are collected.

Major Events Trust Fund 0869 – Used to fulfill joint obligations of the state and endorsing municipality or county to a site selection organization under a games support contract.

Deposit Default Fund 9000 – To provide a temporary depository for money held in suspense pending final disposition. Items held in the fund are cleared to the various Special Revenue Funds or the General Revenue Fund, or refunded to the payer.

Sexual Assault Program Fund 5010 – Created to receive parole supervision and probation fees collected under arts. 42.12, 22(e) and art 42.18 8(p), C.C.P. and gifts, grants and money appropriated for grants to maintain or expand existing services.

Tobacco Settlement Fund 5040 – To receive settlement money resulting from the final judgment in the State of Texas. The American Tobacco Company, et. al., civil action no. 5:96cv91. These funds are distributed to appropriate agencies and funds as identified in the court ordered settlement.

Disabled Veterans Local Government Assistance Fund 5160 – To provide reimbursements to qualifying local governments who have lost at least two percent of property tax revenue providing homestead property tax exemptions to totally disabled veterans or their surviving spouses.

GR Account – Game, Fish, and Water Safety (0009) – To receive revenues directed to be deposited to the Game, Fish, and Water Safety Account.

Texas Home Visiting Program Trust Fund (0803) – To receive voluntary contributions at the time of issuance of a marriage license.

GR Account – Commission on State Emergency Communications (5007) – To receive 9-1-1 equalization surcharges imposed on each local exchange access line. Money is allocated to regional planning commissions and poison control centers.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Listed below are the agency's Special Revenue Funds and their purpose.

County Road Oil and Gas Trust Fund (0808) – To receive money from the leasing of oil and gas under lands owned by the state that were or may be acquired by a county to construct a county road.

Property Tax Relief Fund 0304 – Special fund in the state treasury outside the general revenue fund. The proceeds of the fund are from allocations of the computation of motor vehicle sales tax, collection of all tobacco products tax increases and calculated amounts from franchise taxes. The intent of the fund will be to reduce school district property taxes.

Binding Arbitration Trust Fund 0838 – This is used to retain and pay the administrative costs in binding arbitration cases of property value appeals initiated by property owners. Monies are moved to this special revenue fund from the same agency fund for payment of administrative costs

International Fuels Tax Agreement (IFTA) Trust Fund 0886 – To receive motor fuels taxes estimated to be due to other jurisdictions or otherwise subject to refund during the fiscal year, penalties and interest on those taxes due other jurisdictions, licensing fees, and other costs collected under the agreement.

Habitat Protection Fund 9999 – This fund held with the Texas Treasury Safekeeping Trust Company was established by the 82nd Legislature to support the development or coordination of the development of a habitat conservation plan or a candidate conservation plan or to pay the costs of monitoring or administering the implementation of such a plan. The fund consists primarily of donations and fees paid by entities or individuals who voluntarily enroll in such a plan.

PERMANENT FUNDS

Permanent Fund Supporting Graduate Education Fund 0179 – To receive transfers or appropriated amounts, gifts or grants, and investments returns. Receives assets transferred from the Texas Medical Liability Insurance Underwriting Association. Distributions from the fund are for graduate medical education planning and partnership grants to hospitals, medical schools, and community-based, ambulatory patient care centers. For the development of new graduate medical education programs with first-year residency positions.

Permanent Fund Supporting Military and Veterans Exemptions Fund 0210 – To receive gifts, grants and investment returns for distributions to higher education institutions to offset the cost of the exemptions to certain veterans and/or dependents. Distributions are determined by the Legislative Budget Board based on each Institution’s respective share of the aggregate cost to all institutions of the exemptions. The Texas Treasury Safekeeping Trust Company determines the amount available for distribution from the fund.

Available National Research University Fund 0214 – To receive disbursements from the National Research University Fund held outside the treasury. The money is to be used by eligible institutions only for the support and maintenance of educational and general activities that promote increased research capacity at the institution.

FIDUCIARY FUNDS

Private-Purpose Trust Funds

Private-Purpose Trust funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments. Listed below are the agency’s Private-Purpose Trust funds and their purpose.

Federal Resource Receipts Distribution Fund 0521 – To deposit money received by state under section 191 or 355, Title 30, United States Code, including state portion of sales, bonuses, royalties or rentals.

Private-Purpose Tobacco Settlement Political Subdivision Trust Fund 0872 – To hold a portion of the tobacco settlement money designated for the exclusive benefit of political subdivisions and will be distributed to political subdivisions as directed in the settlement.

Direct Deposit Correction Fund 0980 – To hold money returned by financial institutions which had been transmitted for direct deposit where problems prevented credit are given to individual depositors until the agency issuing the original payment makes the correction by transferring the funds back to the original issuing fund or the person for whom the original payment was made is refunded the money.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures are recognized in the accounts reported in the financial statements. Governmental fund types are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred. Exceptions are unpaid employee compensable leave, and the unmatured debt service (principal and interest) on general long-term debt, long-term capital leases, and long-term claims and judgments, which are not recognized until actual payment is made.

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Unobligated appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Since the Comptroller reports the entire cash balance for the general fund, budgetary accounts are eliminated for the *Annual Financial Report*.

ASSETS, LIABILITIES AND FUND EQUITY

Assets

Taxes Receivables

Amounts shown as taxes receivable represent various state taxes due to the state at Aug. 31, 2019.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Liabilities

Other Liabilities represent intergovernmental taxes and the value of unclaimed property at the balance sheet date.

Deferred Inflows

Amounts shown as deferred inflows represent tax revenues earned but not available and resources received but not earned, ie., prepaid sales taxes, at Aug. 31, 2019. A breakdown by Tax Type is available on Schedule 5.

Fund Balance/Net Position

The difference between fund assets and liabilities is ‘Net Position’ on the government-wide and fiduciary fund statements and the ‘Fund Balance’ is the difference between fund assets and liabilities on the governmental fund statements.

Restricted Fund Balance

This fund balance is reported as restricted when constraints placed on the use of resources are either (a. externally imposed by laws and regulations of other governments or (b. imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the state’s highest level of decision-making authority (the Legislature) are reported as committed fund balance.

Unassigned Fund Balance

This is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and has not been restricted, committed or assigned for specific purposes within the general fund. The general fund is the only fund that can report a positive unassigned fund balance.

INTERFUND TRANSACTIONS AND BALANCES

Interfund transactions refers to interactions with legally separate entities such as other state agencies and is restricted to external events. The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statements.

The Comptroller’s Fiscal Section has the following types of transactions between funds/agencies:

- Due To Other Agencies
- Due From Other Agencies
- Transfers In
- Transfers Out

NOTE 2: Capital Assets

Capital assets are not shown on the governmental fund financial statements, but rather are included as governmental activities in the government-wide financial statements. A summary of changes in capital assets for the year ended Aug. 31, 2019, is presented below:

INVESTMENTS

The Comptroller – Fiscal categorizes fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The three tiered fair value hierarchy us as follows.

- Level 1- Quoted prices for identical investments in an active market
- Level 2–Significant other observable inputs other than quoted market prices
- Level 3–Significant unobservable inputs

NOTE 7: Derivatives

Derivatives are financial instruments whose value is derived, in whole or part, from the value of any one of more underlying securities or assets, or index of securities or assets, such as stocks, bonds, commodities, or currencies. The Endowment funds use derivatives as part of the portfolio hedging and overlays program. The objective of the program is to facilitate risk management and provide efficiency in the implementation of various investment strategies. Permitted applications of the portfolio hedging and overlays program are to implement strategies in a low cost and efficient manner; to hedge and control risks; to alter the Funds' market (systemic) exposure without trading the underlying cash market securities; to construct portfolios with risk and return characteristics that could not be created with cash market securities; or to facilitate transition trading.

Through the use of derivatives, the risks that are bound together in traditional cash market investments can be separated and managed independently. The primary intent of the Fund's investment in derivative instruments is to manage and implement investment strategies more effectively and at a lower cost than would be possible in the cash market. To achieve these purposes, the Fund used futures and swaps during fiscal year 2019. All of the Fund's derivative instruments are considered investment derivatives and therefore are measured and reported at fair value.

The fair value, changes in fair value, and notional value of the Fund's derivatives investments, classified by derivative type, are displayed in the following table as of Aug. 31, 2019. Note 3 also discloses details about these investment derivatives.

PROTEST TAX PAYMENTS:

As of Aug. 31, 2019, pending litigation filed by taxpayers seeking refunds of state taxes totaled \$162 million. The taxes protested include sales, franchise, insurance and other taxes. Although the outcome of these cases cannot presently be determined, adverse ruling in some of them could result in significant additional refunds.

NOTE 18: Management Discussion and Analysis

The General Revenue Fund 0001 cash balance increased to \$2.2 billion in fiscal 2019, an increase of \$3.6 billion from the balance of (\$1.4) billion in fiscal 2018. This is attributable to a net increase in total net revenue and other sources over total net expenditures and other uses. This agency provides legislative funding for statewide agency's expenditures and this is reflected in its legislative transfers-out. As disclosed in Note 27, a portion of the accrued taxes reported in this agency's report will not be finalized until the *Comprehensive Annual Financial Report* is completed.

The Economic Stabilization Fund (ESF) ended fiscal 2019 with a total balance of \$10 billion, a decrease of \$1 billion over fiscal 2018. The ESF ending balance was comprised of \$6.8 billion in cash and investments having a fair market value of \$3.3 billion as detailed in Note 3. The Texas Constitution mandates that if oil or natural gas taxes exceed the net amount received in fiscal 1987, an amount of at least one-half of 37.5 percent of the excess must be transferred to the state's ESF from the general revenue fund. In addition to the oil and gas transfer, one half of any unencumbered balance in fund 0001 at the close of the biennium must be transferred to the ESF. There was a \$2 thousand transfer out in FY19 from the ESF to the general revenue fund.

The Property Tax Relief Fund had no ending cash balance. This year's revenues of \$2.1 billion were transferred out to the Foundation School Fund 193 to pay for property tax relief.

Tax collections, the major source of revenue reported in this agency, experienced a 6.8 percent increase from fiscal 2018. Growth in sales tax collections increased again in 2019, with revenue up 6.5 percent over 2018, and motor vehicle sales tax collections increased by 0.7 percent. Sales tax collections account for 57.3 percent of all tax collections. Motor fuels taxes on gasoline, diesel and other fuels increased 1.9 percent from 2018. Oil production and regulation taxes also increased 14.6 percent from fiscal 2018, and natural gas production tax collections increased by 17.8 percent in 2019 to \$1.7 billion. A non-tax category for agency 902, licenses, fees, fines & permits, increased 1.0 percent from fiscal 2018. On a statewide basis, this category accounts for 5.1 percent of total net revenue and contributed \$6.5 billion in fiscal 2019.

NOTE 19: The Financial Reporting Entity

There were no significant related party transactions in agency 902 in fiscal 2019.

NOTE 20: Stewardship, Compliance and Accountability

This section of the report reflects the activities of the Comptroller – Fiscal function (Agency 902) in the General Revenue Fund (0001), the Economic Stabilization Fund (0599), the Flood Area School and Road Expendable Trust Fund (0903), and

other funds. The entire activity of the state’s General Revenue Fund will be reflected in the fiscal 2019 State of Texas *Comprehensive Annual Financial Report*.

NOTE 21: Tobacco Settlement

The state of Texas settled a lawsuit against certain tobacco manufacturers in 1998. The settlement included monetary and injunctive relief. The settling tobacco manufacturers agreed to remit annual payments to the state. Estimates made at the time of the agreement projected that these payments could total \$15.1 billion over the first 25 years of the agreement. The court-ordered annual payment amounts are subject to adjustments on the tobacco companies’ domestic cigarette sales, the general consumer inflation rate, the profitability of the tobacco companies and any other court-ordered factors. A revenue accrual and deferred revenue of \$297.6 million has been calculated on estimated sales from Jan. 1 to the end of the fiscal year. Actual tobacco settlement revenues were \$489.9 million in fiscal 2019 and \$448.2 million in fiscal 2018. Cumulative actual tobacco settlement revenues as of fiscal 2019 were \$10.7 billion.

NOTE 27: Taxes Receivables/Payables

A. Taxes Receivable

The Comptroller – Fiscal agency collects certain taxes for the State of Texas. Taxes receivable represent amounts due to the state at Aug. 31, for revenues earned in the current fiscal year that will be collected in the future. The receivables have been recorded net of allowances for uncollectible accounts. Revenue is recorded on the governmental fund financial statements using the modified accrual basis of accounting for amounts due to the State of Texas at Aug. 31 that are considered as “available” (e.g. received by the state within approximately 60 days after that date). Revenue earned but not “available” at Aug. 31 is recorded as deferred inflow revenue. Prepaid taxes are also recorded as deferred inflow revenue.

On the government-wide financial statements a corresponding amount is recorded as revenue using the accrual basis of accounting, which includes revenue earned at fiscal year-end regardless if it is available. Unearned revenue includes only the prepaid taxes that have not been earned by fiscal year end. Taxes receivable are the same for both modified and full accrual basis.

Taxes receivable have been netted against any refunds payable and estimated uncollectable taxes with the exception of the Franchise Tax and Oil and Gas Production Tax. Refunds payable will be shown separately for the Franchise Tax and Oil and Gas Production Taxes. The full accrual basis is reported on the government-wide financial statements in the State of Texas *Comprehensive Annual Financial Report* (CAFR).

UNAUDITED
Comptroller – Fiscal (902)

As of Nov. 20, 2019, the taxes receivable and unearned revenue balances for the Franchise Tax had not been finalized. The Franchise Tax Revenue and Tax Receivable will be finalized after the final returns for the tax due May 15, 2019, are processed. The tax returns are due Nov. 15, 2019. Adjustments will be made if necessary prior to publication of the CAFR.

Taxes receivable, as reported in the General Fund (Exhibit I), are detailed by tax type as follows:

Tax Type	Net Taxes Receivable
Sales and Use Tax	\$ 1,289,569,696.57
Motor Vehicle & MFG Housing	128,682,711.08

Refunds Payable	<u>\$ (46,168,760.86)</u>
Total Net Taxes Receivable	<u>\$ 1,892,847,356.88</u>

NOTE 28: Contested Taxes

The state may assess a claim against one or multiple taxpayers for a tax liability. Taxpayers may petition for a formal hearing before an independent administrative law judge if they wish to challenge a tax liability assessed by the state. If the request for a determination hearing is received within a specified time, the taxpayer does not have to pay the tax until a final decision is reached. As of Aug. 31, 2019, there was an estimated \$717 million of assessments filed that are currently in the redetermination hearings process. Collectability of these assessments is dependent upon the decisions of administrative law judges. These assessments are not recognized as tax revenue until the administrative hearing is final. Therefore, these amounts are not included in the receivables reported in the financial statements.

NOTE 29: Deferred Inflow of Resources

The deferred inflow revenue in general revenue of \$248 million consists of revenues earned but not available to finance expenditures of the current fiscal period.

NOTE 30: Unclaimed Property

The state holds certain property that is escheated to the state in the absence of legal claimants or heirs. Although a rightful owner can reclaim escheat property unto perpetuity, large portions of escheated property are never reclaimed. Additionally, the revenue generated from escheat property has always exceeded the amount needed to pay current claims. In fiscal year 2019, the unclaimed property fund received \$693 million in gross revenues, made \$308 million in claimant payments and transferred \$385 million to the general fund. The claimant liability in the general fund of \$292 million represents the probable amount that will be reclaimed and paid to claimants in the following year. As of Aug. 31, 2019, a balance of \$371 million in marketable securities and mutual funds were held in trust. The state also holds an insignificant amount of personal property, such as jewelry.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

GENERAL INTRODUCTION

The Comptroller Treasury – Fiscal is an agency of the state of Texas, and its financial records comply with the state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements of State Agencies.

Effective Sept. 1, 1996, the constitutional office of the Treasurer was abolished, and the powers, duties, obligations, rights and contracts of the Treasurer were transferred to and assumed by the State Comptroller of Public Accounts.

There are no component units in which the Comptroller Treasury – Fiscal is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the state of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES

General Fund

The general fund is used to account for all financial resources of the state except those required to be accounted for in another fund.

Permanent Funds

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the state’s programs.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets held as an agent for individuals, other government entities, and/or other funds. These funds are custodial in nature and do not involve measurement of results of operations.

Private-Purpose Trust Funds

Agencies use private-purpose trust funds to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. All governmental fund types and agency funds are accounted for on the modified basis of accounting. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred. Exceptions are unpaid employee compensable leave, and the un-matured debt service (principal and interest) on general long-term debt, long-term capital leases, and long-term claims and judgments, which are not recognized until actual payment is made.

BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (The General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES AND FUND BALANCES/NET ASSETS

ASSETS

Investments

Investments are stated at fair value in all funds in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

Securities Lending Collateral

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Interest and Dividend Receivables

This includes interest and dividends accrued on investments at year-end that will not be deposited to the Fund until after the fiscal year.

Investment Trade Receivables

This represents investment sales that occurred on or before fiscal year-end for which cash payment will be received after fiscal year-end.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Notes Payable

State of Texas Tax and Revenue Anticipation Notes are recorded at par. The bond proceeds are accounted for as an “Other Financing Source” in the Tax and Revenue Anticipation Note Fund 577 when received, and expenditures for payment of principal and interest are recorded in the Tax and Revenue Anticipation Note Fund 577 when paid.

Investment Trade Payables

This represents the liability for investment purchases that occurred on or before fiscal year-end for which cash payment will be received after fiscal year-end.

FUND BALANCE/NET POSITION

Fund Balance/Net Position

“Fund balance” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. “Net position” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as non-spendable, restricted, committed, assigned or unassigned in the fund financial statements.

- Non-spendable fund balance includes amounts not available to be spent because they are either:
 - Not in spendable form
 - OR –
 - Legally or contractually required to be maintained intact.
- Restricted fund balance includes those resources that have constraints placed on their use through external parties — such as creditors, grantors, contributors, laws or regulations of other governments — or by law through constitutional provisions or enabling legislation.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state’s highest level of decision making authority.
- Assigned fund balance includes amounts constrained by the state’s intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by:
 - The Texas Legislature
 - OR –
 - A body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Restricted Net Position

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

INTERFUND ACTIVITIES AND BALANCES

The Treasury has the following types of transactions between funds:

- (1) Transfers: Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund

The composition of the agency’s Interfund activities and balances are presented in Note 12.

NOTE 2: Capital Assets

(Not Applicable)

NOTE 3: Deposits, Investments & Repurchase Agreements

All monies in funds established in the Treasury by the State Constitution or by an act of the Legislature are pooled for investment purposes. All monies of the Trust Company are invested according to Section 404.106 of the Government Code.

INVESTMENT AUTHORITY

Section 404.024 of the Government Code permits the investment of these funds in the following instruments:

1. Fully collateralized time deposits in banks and savings and loan associations domiciled in the state which have been approved by the State Depository Board to receive state deposits;
2. Direct security repurchase agreements;
3. Reverse repurchase agreements;
4. Direct obligations of, or obligations the principal and interest of which are guaranteed by the United States, its' agencies and instrumentalities;
5. Bankers' acceptances that: (i) are eligible for purchase by the Federal Reserve System, (ii) do not exceed 270 days to maturity, and (iii) are issued by a bank that has received the highest short-term credit rating by a nationally recognized investment firm;
6. Commercial paper that has received the highest short-term credit rating by a nationally recognized investment rating firm and does not exceed 270 days to maturity; and
7. Contracts written by the Comptroller in which the Comptroller grants the purchaser the right, for a fee, to purchase securities in the Treasury's marketable securities portfolio at a specified price over a specified period. These contracts are commonly known as covered call options. Uncovered option trading is specifically prohibited.

No more than 20 percent of the aggregate funds on deposit in financial institutions at any time may be placed by the Comptroller in savings and loan associations.

Repurchase and reverse repurchase agreements may be entered into by the Comptroller only with state or national banks doing business in Texas or primary dealers approved by the Federal Reserve System.

There were no significant violations of legal provisions during the period.

DEPOSITS OF CASH IN BANK

Custodial Operations

As of Aug. 31, 2019, the carrying amount and the total bank balance of deposits is presented below:

Custodial Operations	
Cash in Bank – Carrying Amount	\$605,280,112.17
Total Cash in Bank	<u>\$605,280,112.17</u>

The Trust Company's contract with the Federal Reserve Bank permits the Trust Company to wire transfer funds for the purpose of facilitating investment transactions. Correspondingly, a minimum cash balance is maintained in the account to generate earnings credits sufficient to offset the costs of the services received. As these investment transactions occur, the

UNAUDITED
Comptroller Treasury – Fiscal (311)

Federal Reserve Bank requires that the Trust Company maintain a positive cash balance in the account intraday and at the end of the day. The Trust Company met those requirements throughout fiscal 2019.

Collateralization and Risk Categorization – In accordance with state law, all amounts deposited in financial institutions above the amounts insured by the Federal Deposit Insurance Corporation are fully collateralized 105 percent by the pledging, to the Comptroller, of securities valued at market, excluding accrued interest. Generally the list of eligible securities includes all U. S. Treasury and most Agency Obligations, including certain mortgage backed securities pledged at 125 percent, and securities issued by state agencies and political subdivisions within the State. All securities pledged to the Comptroller must be held by a third-party custodian bank doing business in the State through a main office or one or more branches, any Federal Reserve Bank, the Texas Treasury Safekeeping Trust Company, any Federal Home Loan Bank or in the vault of Treasury Operations at the State Comptroller of Public Accounts.

Securities pledged as collateral on Aug. 31, 2019, were categorized as follows:

Political Subdivision Securities		U.S. Government Securities	
<u>Moody's Investors Service Ratings</u>	<u>Percent of Collateral Pledged</u>	<u>Description</u>	<u>Percent of Collateral Pledged</u>
AAA	13.16%	Federal Home Loan Bank Debentures	1.98%
AA	16.61%	Federal Home Loan Mtg. Corp-Mtg. backed	4.27%
A	4.71%	Federal Farm Credit Bank	4.30%
	<u>Subtotal</u>	Federal National Mortgage Assn	0.60%
	<u>34.48%</u>	Federal National Mtg Assn-Mtg. backed	10.56%
		Government National Mortgage Assn	10.94%
		Federal Home Loan Bank Letters of Credit	<u>32.88%</u>
		Subtotal	<u>65.52%</u>
		TOTAL	<u>100.00%</u>

Based on an opinion letter received by the Treasury from the FDIC, it is the policy of the Treasury to collateralize bank deposits based on a collected funds basis.

During fiscal 2019, no depository holding state funds failed.

All securities pledged to the Trust Company must be held by the Trust Company, a third-party bank that is an approved depository and approved custodian, any Federal Reserve Bank, Federal Home Loan Bank or in the vault of the Treasury. The Trust Company has contracted with financial institutions to collateralize Trust Company deposits in excess of depository insurance.

State statute permits depository institutions to select the bank that may serve as their third-party custodian for collateral pledged by that institution to the Comptroller. These banks must be approved depositories and approved custodians with capital and surplus of \$5,000,000 or more.

All deposits in financial institutions for Comptroller custodial operations, as of Aug. 31, 2019, were fully secured by FDIC insurance and securities pledged to the Comptroller.

The Comptroller may purchase direct obligations of or obligations, the principal and interest of which are guaranteed by the U.S.; and direct obligations of, or obligations guaranteed by U.S. agencies or GSEs. Mortgage-backed securities are eligible for purchase except those specifically prohibited by section 404.024 (e) of the Government Code. Treasury funds may invest in commercial paper that has received the highest short-term credit rating by a nationally recognized statistical rating organization or “NRSRO”. “Highest short-term credit rating” includes at least one of the following short-term credit ratings, Moody’s (P-1), Standard & Poor’s (A-1), or Fitch, Inc. (F-1). Money market funds must be rated AAAM by a NRSRO. Treasury Funds may invest in asset-backed securities that are rated at least A or its equivalent by a NRSRO and that have a weighted-average maturity of five years or less, as well as corporate debt obligations that are rated at least AA+ or its equivalent by a NRSRO and mature in five years or less from the date on which the obligations were acquired. The Treasury portfolio is rated AAAs by Standard & Poor’s. The following table lists Standard & Poor’s credit rating by investment type for the Treasury Pool securities that are subject to credit risk.

Valuations are intended to be made in a manner that is consistent with the Governmental Accounting Standard Board's (GASB) Statement No. 72, *Fair Value Measurement and Application*. GASB 72 generally requires state and local governments to measure investments at fair value with some exceptions. GASB defines an investment as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. The investment designation is made at acquisition and remains for the life of the asset. Investments not measured at fair value continue to include, for example, money market investments, 2a7-like external investment pools, investments in life insurance contracts, common stock meeting the criteria for applying the equity method, unallocated insurance contracts, and synthetic guaranteed investment contracts. A government is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the net asset value per share (or its equivalent) of the investment. Investments are categorized based on the fair value hierarchy of inputs summarized below:

- **Level 1 Inputs** – Quoted (unadjusted) prices in active markets for identical assets or liabilities. Examples of markets in which inputs might be observable include exchange markets, dealer markets, brokered markets, and principal-to-principal markets.
- **Level 2 Inputs** – Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves, implied volatilities, credit spreads; or market-corroborated inputs.
- **Level 3 Inputs** – Unobservable inputs for the asset or liability. They should be used only when relevant Level 1 and Level 2 inputs are unavailable. A government should develop Level 3 inputs using the best information available under the circumstances, which might include the government's own data. It should adjust those data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants. A government need not undertake exhaustive efforts to obtain information about market participant assumptions.

Investments in private equity, real estate, and hedge funds are generally limited partner interests in the funds and reported at net asset value ("NAV"). Private Equity and Real Estate Investments; Investments are valued monthly at NAV using the latest account statements from the funds. NAV is adjusted for cash flows that occur after the date of the statements through the month-end date. Account statements are typically issued quarterly. Hedge Funds; Investments are valued monthly at NAV using the current monthly account statements from the funds; If a current monthly account statement is unavailable, the value is calculated by using the estimated monthly return from the fund. Once a statement is received, the value is adjusted to reflect the NAV from the statement adjusted for cash flows that occur after the statement date. Mutual Funds; Investments are valued daily or monthly, as appropriate, at NAV per share. Exchange Traded Funds (ETFs); Investments are valued daily using electronic feeds from pricing vendors.

Credit Risk. Corporate obligations must be rated investment grade by at least one NRSRO and not rated below investment grade by any NRSRO. Short-term securities must be rated in the highest rating category by an NRSRO. The average quality rating of the high-yield fixed income portfolio shall be B1/B+ or higher. All high-yield securities when purchased must be rated at least CCC. The following schedule lists Standard & Poor's credit rating by investment type for the Endowment Fund securities that are subject to credit risk. The high-yield securities not rated by Standard & Poor's are rated Ba or B by Moody's. The investments in the short-term investment fund are investments in State Street's Institutional Liquid Reserve fund which is rated AAA by Standard & Poor's.

Concentration Risk. Excluding securities issued or guaranteed by the U.S. Government, its agencies, instrumentalities, and GSE's, no more than 5 percent of the portfolio at the time of purchase, shall be invested in securities of one issuer.

Interest Rate Risk. The endowment funds do not have a formal investment policy that limits investment maturities. The following schedule reflects the average effective duration of the Endowment Funds by investment type. The investments in the securities lending cash collateral pool and the short-term investment fund use a weighted average maturity to reflect the interest rate risk.

Marketable Securities – All United States Treasury and Agency Securities owned by the Comptroller are held in the Trust Company's book-entry account at the San Antonio Branch of the Federal Reserve Bank of Dallas where they are delivered versus payment. All bankers' acceptances and commercial paper are held by the state's agent in the state's name. A safekeeping receipt is issued to the state acknowledging delivery.

Investment in the Trust Company – Section 404.105 of the Government Code authorizes the investment of state funds in the Trust Company. Through an order of the State Depository Board, dated Oct. 31, 1986 the Comptroller has invested \$1,000,000 in the Trust Company. These funds are invested by the Trust Company in obligations authorized by law for the

investment of funds held and managed by the Comptroller. Any net earnings attributable to this investment are credited and allocated annually to the Comptroller. The Trust Company’s total contributed capital consists of one share of no par common stock for \$1,000,000 owned by the Comptroller. One share was authorized and issued.

NOTE 4: Short-Term Debt

Pursuant to Subchapter H of Chapter 404 of the Texas Government Code, the Comptroller is authorized to issue, sell, and deliver Tax and Revenue Anticipation Notes (TRAN) on behalf of the state. The TRAN are valid and binding obligations of the state, payable in accordance with the terms of the Comptroller’s TRAN order. The TRAN are payable from transfers from the General Revenue Fund to a payment account.

On Aug. 22, 2018 (with an issue date of Sept. 5, 2018), \$7,200,000,000 in State of Texas Tax and Revenue Anticipation Notes, Series 2018 were sold for the purpose of coordinating the cash flow of the state for the fiscal year ended Aug. 31, 2019. Issuance of the TRAN also enhanced the state’s ability to make timely payments of expenditures which are payable from the General Revenue Fund. The TRAN matured on Aug. 29, 2019 and bore an interest rate of 4.00 percent and was priced to yield at 1.8394 percent as determined by the bids of the initial purchasers.

Gross note proceeds were \$7,352,581,400. Interest and other investment income on gross TRAN proceeds were \$176,285,425.75. Debt service payments included \$7,200,000,000 for principal and \$282,476,712.23 in interest expense.

On Aug. 21, 2019, the State Comptroller sold \$8,000,000,000 of State of Texas Tax and Revenue Anticipation Notes, Series 2019. The TRAN is dated Sept. 4, 2019, and will mature on Aug. 27, 2020. The TRAN bear interest at 4.00 percent and were priced to yield 1.3357 percent. The notes are not subject to redemption prior to maturity.

On Aug. 22, 2019, good faith funds in the amount of \$80,000,000 were received by the Comptroller and on Sept. 4, 2019, the balance of the note proceeds, in the amount of \$ 8,128,483,394.81, were received.

NOTE 7: Derivative Instruments

Derivatives are financial instruments whose value is derived, in whole or part, from the value of any one of more underlying securities or assets, or index of securities or assets, such as stocks, bonds, commodities, or currencies. The Endowment funds use derivatives as part of the portfolio hedging and overlays program. The objective of the program is to facilitate risk management and provide efficiency in the implementation of various investment strategies. Permitted applications of the portfolio hedging and overlays program are to implement strategies in a low cost and efficient manner; to hedge and control risks; to alter the Funds’ market (systemic) exposure without trading the underlying cash market securities; to construct portfolios with risk and return characteristics that could not be created with cash market securities; or to facilitate transition trading.

UNAUDITED
Comptroller Treasury – Fiscal (311)

Through the use of derivatives, the risks that are bound together in traditional cash market investments can be separated and managed independently. The primary intent of the Fund’s investment in derivative instruments is to management and implement investment strategies more effectively and at a lower cost than would be possible in the cash market. To achieve these purposes, the Fund used futures and swaps during fiscal year 2019. All of the Fund’s derivative instruments are considered investment derivatives and therefore are measured and reported at fair value.

The fair value, changes in fair value, and notional value of the Fund’s derivatives investments, classified by derivative type, are displayed in the following table as of Aug. 31, 2019.

NOTE 33: Cigarette Tax Recovery Trust Fund

The Cigarette Stamp Tax Recovery Trust Fund (the Trust Fund) was created pursuant to Section 154.051 of the Texas Tax Code. On Sept. 1, 1987, the Trust Fund replaced surety/payments bonds as a source of security for the state's extension of credit to purchasers of cigarette tax stamps. The Trust Fund is maintained outside Treasury. The Trust Fund operates much like a self-insurance pool in that distributors deposit 20 percent of their desired line credit. The pool of deposits insures the State from loss in the event of default by any distributors. The distributors determine their respective level of participation.

NOTE 34: Texas Treasury Safekeeping Trust Company

The Texas Treasury Safekeeping Trust Company (Texas Trust) was incorporated as a special-purpose trust company as outlined within section 404.102 of the Government Code. The purposes of the Texas Trust are to provide a means for the Comptroller to obtain direct access to services provided by the Federal Reserve System and to enable the Comptroller to manage, disburse, transfer, safe keep, and invest funds and securities more efficiently, economically and in accordance with the applicable governing investment guidelines.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

GENERAL INTRODUCTION

The Texas Treasury Safekeeping Trust Company (Texas Trust) was created in 1986 by the 69th Legislature to provide a separate legal entity for the State Treasurer. The incorporation of the trust company was necessary to obtain direct access to services provided by the Federal Reserve System. The 77th Legislature amended the Texas Trust statute and the Texas Trust began operations as a separate State entity on Sept. 1, 2001. The Comptroller of Public Accounts (Comptroller) is the single shareholder of the Texas Trust and is charged with managing the Texas Trust. Texas Trust is one of only two state-owned trust companies with direct access to the Federal Reserve System.

The Texas Trust is authorized to manage, disburse, transfer, safekeep and invest funds and securities provided by statute or belonging to state and local entities and gives the Comptroller direct access to services provided by the Federal Reserve System.

This section of the report includes only those funds and accounts from which the Texas Trust's own departmental activities are financed. The Texas Trust's fiscal function (Agency 930) is reported in a separate section of this report.

Due to the significant changes related to Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the Texas Trust is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity. The funds and account groups used to reflect the agency's transactions are as follows:

Proprietary Fund Types

Enterprise Funds

Enterprise funds are used to report any activity for which a fee is charged to external users for services such as investment management and custodial services. The Texas Trust accounts for its daily operations using an enterprise fund. Operating revenues result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as investment earnings, result from non-exchange transactions or ancillary activities.

Fiduciary Fund Types

Agency Funds

Agencies use agency funds to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. The Texas Trust has the Texas Public Finance Authority Bond Escrow, which is used to hold funds for various defeased or refunded bonds and the Child Support Employee Deductions (Fund 8070), which is just Cash in State Treasury.

External Investment Trust Funds

Agencies use external investment trust funds to account for the state's external portion of investment pools reported by the sponsoring government. The Texas Government Investment Pools (TexPool and TexPool Prime) are local government investment pools administered by the Texas Treasury Safekeeping Trust Company – Comptroller's office. The investor base consists of cities, counties, school districts, institutions of higher education, special districts, and other public entities of Texas.

BASIS OF ACCOUNTING

The Texas Trust financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. All enterprise fund types are accounted for using the accrual basis of accounting. This includes unpaid Employee Compensable leave. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred.

The Texas Trust has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting*, which specifies that in addition to adopting all applicable GASB pronouncements, the Texas Trust has adopted Statements and Interpretations of the Financial Accounting Standards Board, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure issued prior to Nov. 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Texas Trust has elected to follow only GASB Standards issued subsequent to Nov. 30, 1989.

ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS

CURRENT ASSETS

Cash and Cash Equivalents

Short-term, highly liquid investments with an original maturity of three months or less are considered cash equivalents.

The Texas Trust has agreed to maintain a \$10,000,000.00 clearing balance within its Federal Reserve account. Earnings on the clearing balance are used to offset fees associated with its use of Federal Reserve services. The Texas Trust Federal Reserve account balance reported in cash on Aug. 31, 2019, was \$10,000,000.86 from the Texas Trusts' Enterprise Fund.

Restricted Cash

The Texas Trust maintains an account with the Depository Trust Company (DTC). In accordance with the agreement between DTC and the Texas Trust, \$97,026.00 in cash was held at DTC as of Aug. 31, 2019, in order to maintain the account.

Investments

Investments are reported at fair value based upon quoted market prices, with the change in fair value of investments captioned as Net Increase (Decrease) in the Fair Value of Investments, and interest income reported at the relevant stated interest rate.

Restricted Investments

The Texas Trust has a balance of \$437,910.84 in stock with the Depository Trust Company as of Aug. 31, 2019.

Receivables

The business-type activities of Texas Trust include providing investment management and custody services. Management fees charged to customers support these activities. Receivables from management fees as of Aug. 31, 2019, were \$5,059,135.23. The amount due from Other Agencies as of Aug. 31, 2019, was \$13,906.68. This balance consisted of fees for agency return items and Bloomberg Terminals for CPA.

NON-CURRENT ASSETS

Capital Assets

Assets with an initial, individual cost of more than \$5,000 for furniture and equipment and building and building improvements of more than \$100,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if any purchased, at appraised fair value as of the date of acquisition. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees' Compensable Leave

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the enterprise fund statements.

Invested In Capital Assets, Net Of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

NOTE 3: Deposits, Investments & Repurchase Agreements

All monies in funds established in the Texas Trust by the State Constitution or by an act of the Legislature are pooled for investment purposes. All monies of the Trust Company are invested according to Section 404.106 of the Government Code.

1. Investment Authority

A. Section 404.024 of the Government Code permits the investment of these funds in the following instruments:

1. fully collateralized time deposits in banks and savings and loan associations domiciled in the state which have been approved by the State Depository Board to receive state deposits;
2. direct security repurchase agreements;
3. reverse repurchase agreements;
4. direct obligations of, or obligations the principal and interest of which are guaranteed by the United States, its' agencies and instrumentalities;
5. bankers' acceptances that: (i) are eligible for purchase by the Federal Reserve System, (ii) do not exceed 270 days to maturity, and (iii) are issued by a bank that has received the highest short-term credit rating by a nationally recognized investment firm;
6. commercial paper that has received the highest short-term credit rating by a nationally recognized investment rating firm and does not exceed 270 days to maturity;
7. and, contracts written by the Comptroller in which the Comptroller grants the purchaser the right, for a fee, to purchase securities in the Texas Trust's marketable securities portfolio at a specified price over a spec-

ified period. These contracts are commonly known as covered call options. Uncovered option trading is specifically prohibited.

- B. No more than 20 percent of the aggregate funds on deposit in financial institutions at any time may be placed by the Comptroller in savings and loan associations.
- C. Repurchase and reverse repurchase agreements may be entered into by the Comptroller only with state or national banks doing business in Texas or primary dealers approved by the Federal Reserve System.

2. There were no significant violations of legal provisions during the period.

3. DEPOSITS OF CASH IN BANK

- A. **Collateralization and Risk Categorization** – In accordance with state law, all amounts deposited in financial institutions above the amounts insured by the Federal Deposit Insurance Corporation are fully collateralized by the pledging, to the Texas Trust, of securities valued at market, excluding accrued interest. Generally the list of eligible securities includes all U.S. Government and most Agency Obligations, including certain mortgage backed securities issued by state agencies and political subdivisions within the State. All securities pledged to the Texas Trust must be held by any Federal Reserve Bank or one of its branches or the Texas Trust.

Securities pledged as collateral on Aug. 31, 2019, were categorized under the Political Subdivision Securities, Moody’s Investors Service Ratings AAA or U.S. Government Securities as U.S. Treasury Bills or U.S. Treasury Notes and Bonds.

As of Aug. 31, 2019, the balance of cash at bank and carrying amount of cash is presented below:

Bank Balance	\$ 21,997,262.75
Carrying Amount	\$ 21,308,491.48
Business-Type Activities	
Proprietary Funds Cash at Bank	\$ 10,049,775.95

Fiduciary Funds	
Fiduciary Funds Cash at Bank	\$ 11,161,689.53
Total Cash at Bank	\$ 21,308,491.48

The Trust Company’s contract with the Federal Reserve Bank permits the Trust Company to wire transfer funds for the purpose of facilitating investment transactions. Correspondingly, a minimum cash balance is maintained in the account to generate earnings credits sufficient to partially offset the costs of the services received. As these investment transactions occur, the Federal Reserve Bank requires that the Trust Company maintain a positive cash balance in the account intraday and at the end of the day.

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants. Debt securities and repurchase agreements classified as Level 2 of the fair value hierarchy are valued using other observable significant inputs, including but not limited to, quoted prices for similar securities, interest rates and a fixed-income pricing model. Money market mutual funds classified as Level 1 of the fair value hierarchy are valued using a published net asset value per share.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The Trust Company only invests in overnight Repurchase Agreements which are collateralized by US Government Securities, US Government Agencies or Government Sponsored Enterprises. TexPool and TexPool Prime portfolios are designed and managed to ensure that they maintain a AAAM rating (or the equivalent) by a nationally recognized statistical rating organization (“NRSRO”). As of Aug. 31, 2019, TexPool Prime’s underlying securities of the majority of Repurchase Agreements were rated A-1 by Standard & Poor’s, P-1 by Moody’s Investors Service, and F-1 by Fitch ratings. However, one Repurchase Agreement in the amount of \$300,000,000 was rated A-2 by Standard & Poor’s, P-2 by Moody’s Investors Service, and F-1 by Fitch ratings. Standard & Poor’s ranks both TexPool and TexPool Prime with the highest principal stability rating of AAAM.

Texpool: Up to 100.0 percent of TexPool assets may be invested in government obligations of the United States, its agencies or instrumentalities. However, no more than 60.0 percent of the portfolio may be invested in variable rate notes. Up to 100.0 percent of TexPool assets may be invested in direct repurchase agreements. TexPool may enter into reverse repurchase agreements for up to one third (1/3) of the value of the TexPool assets. No more than 10.0 percent of the TexPool assets may be invested in a single money market fund. The money market mutual fund must be rated AAA or its equivalent by at least one NRSRO. TexPool's investment policy has no limit on the amount it may invest in any single Governmental Sponsored Enterprise (GSE). As of Aug. 31, 2019, TexPool had more than 5.0 percent of the pool's investments in the following GSEs: 26.2 percent with the Federal Home Loan Bank and 7.8 percent with the Federal Farm Credit Bank. As of Aug. 31, 2018, TexPool had more than 5.0 percent of the pool's investments in the following GSEs: 40.2 percent with the Federal Home Loan Bank, 11.4 percent with the Federal Farm Credit Bank and 5.8 percent with the Federal Home Loan Mortgage Corporation.

Texpool Prime: Up to 100 percent of TexPool Prime assets may be invested in government obligations of the United States, its agencies or instrumentalities. However, no more than 60 percent of the portfolio may be invested in variable rate notes. Up to 100 percent of TexPool Prime assets may be invested in direct repurchase agreements. The term of a reverse repurchase agreements may not exceed 90 days after the date of delivery. Up to 75 percent of TexPool Prime assets may be invested in commercial paper. No more than 25 percent of TexPool Prime assets may be invested in a single industry or business sector, provided that this limitation does not apply to securities issued or guaranteed by companies in the financial services industry. No more than 5 percent of TexPool Prime assets at the time of purchase may be invested in a single corporate entity. Up to 15 percent of the TexPool Prime assets may be invested in money market mutual funds that do not seek to maintain a stable net asset value per share. However, TexPool Prime may not acquire shares of a money market mutual fund that represent more than 10 percent of and outstanding shares of that fund at the time of purchase. As of Aug. 31, 2019, commercial paper investments in Toronto Dominion Bank were 5.06 percent exceeding the 5.00 percent policy limit. However, at the time of the last purchase, these investments were under 5.00 percent of total investments. As of Aug. 31, 2018, commercial paper investments per issuer and government agencies were less than 5.00 percent of the pool's investments.

Interest rate risk. The weighted average maturity of the portfolio is limited to 60 days calculated using the reset date for variable rate notes (VRNs) and 90 days or fewer using the final maturity date for VRNs, with the maximum maturity for any individual security in the portfolio not exceeding 397 days for fixed rate securities and 24 months for VRNs. The following schedule reflects the weighted average maturity by investment type and as a whole for Texpool and Texpool Prime.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in Governmental and/or Expendable Trust fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

NOTE 10: Deferred Compensation

State employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in the TEX. GOV'T. CODE ANN., sec 609.001. Two plans are available for employees' deferred compensation plan. Both plans are administered by the Employees Retirement System.

The state's 457 plan complies with the Internal Revenue Code Sec. 457. Deductions, purchased investments and earnings attributed to the 457 plan are the property of the state subject only to the claims of the state's general creditors. Participant's rights under the plan are equal to those of the general creditors of the state in an amount equal to the fair market value of the 457 account for each participant.

The state has no liability under the 457 plan and it is unlikely that plan assets will be used to satisfy the claims of general creditors in the future. The state also administers another plan, 'Texsaver' created in accordance with Internal Revenue Code Sec. 401(k). However, the assets of this plan do not belong to the state nor does the state have a liability related to this plan.

The Texas Treasury Safekeeping Trust Company ("Texas Trust") was created in 1986 by the 69th Legislature to provide a separate legal entity for the State Treasurer. The incorporation of the trust company was necessary to obtain direct access to services provided by the Federal Reserve System, namely wire and custody services, and resulted in cost savings to the State of Texas. Texas Trust is one of only two state-owned trust companies with direct access to the Federal Reserve System.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The State Energy Conservation Office (SECO) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts Reporting Requirements for State Agencies.

The function of the State Energy Conservation Office is to promote and provide for the efficient use of energy, while protecting human health and safety, and the environment. SECO administers and delivers a variety of energy efficient and renewable programs that significantly impact energy cost and consumption in the institutional, industrial, transportation and residential sectors.

Due to the significant changes related to Governmental Accounting Standards Board Statement (GASB) 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the State Energy Conservation Office is financially accountable for in which exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES AND GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Revenue Funds

The General Revenue Fund (Fund 0001) is used to account for all financial resources of the state except those required to be accounted for in another fund.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment Fund (Fund 9997) is used to convert governmental fund types’ debt from modified accrual to full accrual.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. Within SECO, the agency fund is Departmental Suspense (Fund 0900).

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period that they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The state of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. The following activities are recognized in these fund types:

- Unpaid employee compensable leave
- Capital Assets

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES AND FUND BALANCES/NET POSITION

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Federal Receivables-Current

This represents federal grant reimbursements including indirect costs that have been earned but not received.

Loans and Contracts

LoanSTAR Program

The State Energy Conservation Office offers loans from the oil overcharge LoanSTAR fund for energy related cost reduction projects. These low interest loans are made to state agencies and public institutions and are paid back with the funds saved from the reduction of energy costs.

Federally Funded Loan Programs

State Energy Program (SEP - CFDA 81.041)

The State Energy Conservation Office receives an annual grant from the U.S. Department of Energy (DOE) to provide funds for the State Energy Program (SEP). A portion of these funds are authorized by DOE to be used as low interest loans that enable municipalities to maximize their energy efficiency through building retrofits. The loans are paid back with funds saved from the reduction of energy costs. Furthermore, the State Energy Conservation Office chose to

continue the administration of the American Recovery and Reinvestment Act (ARRA) revolving loan program made available through DOE in 2009. The program still offers low interest loans intended to assist governmental entities in financing their energy related cost reduction efforts. No dollars have been transferred from the now discontinued ARRA award to the annual SEP award and all monitoring will follow the same guidelines as the SEP annual grant.

LIABILITIES

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees' Compensable Leave

Employees' compensable leave balances represent the liability that become "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

FUND BALANCE/NET POSITION

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net Position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

- Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- Unassigned fund balance includes the residual classification for the general fund. The net resources of the general fund in excess of nonspendable, restricted, committed and assigned fund balances (a surplus fund balance) are classified as unassigned fund balance.

INTERFUND ACTIVITIES AND TRANSACTIONS

The agency has the following types of transactions between funds/agencies:

- Due To Other Agencies
- Transfers In
- Transfers Out
- Interfund Receivables and Interfund Payables

The composition of the agency's interfund receivables and interfund payables are presented in Note 12.

NOTE 2: Capital Assets

NOTE 5: Long-Term Liabilities

Changes In Long-Term Liabilities

The following changes occurred in liabilities during the year ending Aug. 31, 2019:

Governmental Activities	Balance Sept. 1, 2018	Additions	Reductions	Balance Aug. 31, 2019	Amounts Due Within One Year	Amounts Due Thereafter
Compensable Leave	\$110,516.23	\$83,730.48	\$61,376.53	\$132,870.18	\$61,507.87	\$71,362.31

Employees' Compensable Leave

If a state employee had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. Both an expense and a liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

NOTE 12: Interfund Activity and Transactions

The State Energy Conservation Office experienced routine transfers with other state agencies that were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as “current.” Balances for repayment due in two (or more) years are classified as “non-current.” The State Energy Conservation Office’s LoanSTAR Revolving Loan programs are reported in interfund receivables and payables. The LoanSTAR Revolving loan balances are provided below.

NOTE 14: Adjustments to Fund Balances and Net Position

During fiscal year 2019, certain accounting changes and adjustments were made that required a restatement of fund balance or net position. The restatement is presented below:

	Fund Balance and Net Position for Current Year						
	General Funds (Fund 0001)	Special Revenue Funds	Permanent Funds	Enterprise Funds	Pension and Other Employee Benefit Trust Fund	External Investment Trust Funds	Total
Fund Balance/Net Position Sept. 1st, 2018	\$ 209,215,018.15	\$	\$	\$	\$	\$	\$ 209,215,018.15
Current Year's Restatement	9,244,827.38						9,244,827.38
Fund Balance/Net Position Sept. 1st, 2018 as Restated	<u>\$ 218,459,845.53</u>	<u>\$ 0.00</u>	<u>\$ 0.00</u>	<u>\$ 0.00</u>	<u>\$ 0.00</u>	<u>\$ 0.00</u>	<u>\$ 218,459,845.53</u>
	Changes in Net Position for Prior-Year						
	General Funds (Fund 0001)	Special Revenue Funds	Permanent Funds	Enterprise Funds	Pension and Other Employee Benefit Trust Fund	External Investment Trust Funds	Total
Change in Net Position Aug. 31st, 2018	\$ 209,104,501.92	\$	\$	\$	\$	\$	\$ 209,104,501.92
Current Year's Restatement	9,244,827.38						9,244,827.38

NOTE 32: Governmental Fund Balances

GASB 54 establishes financial reporting standards for fund balances.

The State Energy Conservation Office has the following restrictions/covenants causing fund balances to be committed and restricted as of Aug. 31, 2019:

GAAP Fund	Fund	AFR 54 Class	Amount	Citation	Comments
1	0229/0230	Nonspendable	\$44,257,073.99	Federal CFDA 81.041	The Nonspendable amounts are federal loans. The Department of Energy has allowed the State Energy Conservation Office to use a portion of the State Energy Program Formula Grant funds for loans and approved to continue the American Recovery and Reinvestment Act (ARRA) revolving loan program. These low interest loans allow municipalities to maximize their energy efficiency through building retrofits. The loans are paid back with funds saved from the reduction of energy costs.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller – Texas Bullion Depository (Depository) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements for Annual Financial Reports of State Agencies.

The Depository is established to serve as the custodian, guardian, and administrator of certain bullion and specie that may be transferred or otherwise acquired by the state of Texas, a state agency, a political subdivision, or another entity of the state. The Depository does not own the assets on deposit and does not report them on its financial statements.

There are no component units in which the Depository is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the significant changes related to Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

GOVERNMENTAL FUND TYPES AND GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Fund

General Revenue Fund 0001 – To receive those revenues directed to be deposited to the General Revenue Fund and those revenues for which a specific fund has not been designated; such revenues to be used as the Constitution prescribes and the Legislature directs.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures are recognized in the accounts reported in the financial statements. Governmental fund types are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred. Exceptions are unpaid employee compensable leave, and the unmatured debt service (principal and interest) on general long-term debt, long-term capital leases, and long-term claims and judgments, which are not recognized until actual payment is made.

BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Unobligated appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES AND FUND EQUITY

Assets

Legislative Appropriations

Amounts shown as legislative appropriations represent cash balances in the General Fund at Aug. 31, 2019. The cash balances of these funds are reported by a different agency at the statewide level.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Fund Balance/Net Position

The difference between fund assets and liabilities is 'Net Position' on the government-wide and fiduciary fund statements and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements.

Restricted Fund Balance

This fund balance is reported as restricted when constraints placed on the use of resources are either (a. externally imposed by laws and regulations of other governments or (b. imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the state's highest level of decision-making authority (the Legislature) are reported as committed fund balance.

Unassigned Fund Balance

This is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and has not been restricted, committed or assigned for specific purposes within the general fund. The general fund is the only fund that can report a positive unassigned fund balance.

INTERFUND TRANSACTIONS AND BALANCES

Interfund transactions refers to interactions with legally separate entities such as other state agencies and is restricted to external events. The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statements.

The Depository did not have any interfund transactions or balances during fiscal year 2019.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller – Funds Management Agency (Agency) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements for Annual Financial Reports of State Agencies.

The Agency is used by the Comptroller’s Office, for accounting purposes only, to transfer surplus cash between funds in the State Treasury. No expenditures are made from this fund.

There are no component units in which the Agency is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the significant changes related to Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.
