Definitions

Types of Sale: Provide one of the following codes for each sale reported.

- **MH – Net retail manufactured housing inventory sale** – all units of manufactured housing held for sale at retail and defined as inventory by Occupations Code Section 1201.201. A manufactured home means a mobile home or a HUD-code manufactured home as defined under Occupations Code Section 1201.003. This excludes retailer sales and subsequent sales.
- **RL – retailer sale** – sale of manufactured housing to another retailer.
- **SS – subsequent sale** – retailer-financed sale of a manufactured housing unit that, at the time of sale, has retailer financing from your manufactured housing inventory in this same calendar year. The first sale of a retailer-financed house is reported as a manufactured housing inventory sale, with sale of this same unit later in the year classified as a subsequent sale.

Sales Price: The total amount of money paid or to be paid to a retailer for the purchase of a unit of manufactured housing, excluding any amount paid for the installation of the home.

Unit Property Tax: Provide the total unit property tax for this month that will be submitted with the monthly statement to the collector. To compute, multiply the sales price by the unit property tax factor. For retailer and subsequent sales that are not coded as MH (net retail manufactured housing inventory sale), the unit property tax is \$0. If no unit property tax is assigned, provide the reason.
