

NOTICE OF FINANCIAL OBLIGATION EVENT

The Texas Comptroller of Public Accounts is filing this notice of the amendment of a financial obligation pursuant to the Comptroller’s existing continuing disclosure undertaking for the benefit of owners of Texas state agency securities [described below] that are payable in whole or part from money in the Texas General Revenue Fund. This Notice has been linked to all 6-digit base numbers included in CUSIP numbers assigned to securities payable in whole or part from revenue deposited to the State’s General Revenue Fund. This Notice may be linked to and appear on securities pages for securities payable solely from other revenues. No implication is made that any document described below is relevant to an investment in any such other revenue obligations or securities other than those described below.

Obligor on Financial Obligation – State of Texas acting through the Comptroller of Public Accounts

Type of Event – Financial Obligation Amendment

Type of Obligation – Guarantee

Guarantee – Debt Obligation

Description – Liquidity Agreement Amendments

Pursuant to Texas Government Code Section 404.027, the Comptroller has entered into agreements to provide liquidity for certain state agency debt obligations issued for governmental purposes, so long as they do not conflict with the liquidity needs of the state treasury. The agreements commit the State of Texas to purchase commercial paper securities to refund maturing commercial paper securities, if they cannot be rolled, and demand securities tendered for purchase, if they cannot be remarketed. Such securities, if purchased, would be held as investments in the state treasury, as authorized under Government Code Section 404.024, until such time as they may be refinanced or remarketed. The liquidity agreements do not guarantee the payment of state agency debt obligation principal or interest. Such agreements were previously entered into to support purchase or retirement of the securities described below (as described in documents previously filed with the Municipal Securities Rulemaking Board and linked to such securities on its Electronic Municipal Market Access (EMMA) system) and have been amended on the respective execution dates (becoming effective on the effective dates) described below to extend the final dates and total amounts of the purchase commitments thereunder as follows:
