- **National Institute of Governmental Purchasing Codes**
- Purchasers use these class-item codes to **describe the products or services** they search to purchase. This ensures that a good faith effort is given to HUBs through formal and informal bid opportunities.
- Bidders are encouraged to include the **NIGP codes that best describe** the products or services the business provides in the Vendor Profile.
- It is extremely important to both agencies and potential bidders that **NIGP code selections are correct.**
- **Note: Class Codes 001 to 899 are commodities/products and 900 to 999 are services. Each Class Codes has Item Codes.**

The **CMBL** is a master database used by State of Texas purchasing entities to develop a mailing list for vendors to receive bids based on the products or services they can provide to the State of Texas. Manufacturers, suppliers, and other vendors wishing to furnish materials, equipment, supplies, and services to the state should register for the CMBL to receive bidding opportunities. The information in this database is published in compliance with Texas Government Code §2155.263 and §2161.064, and Texas Administrative Code §20.107 and §20.293.

The CMBL/HUB Directory Search is automatically defaulted to "CMBL Only" to perform a search for vendors, including Texas certified HUBs who have elected to register on the CMBL. Purchasing entities use NIGP Class and Item Codes within the "Multiple Vendor Search" feature to identify vendors who can provide the products or services they want to purchase, and to develop mailing lists of vendors to receive bids.

For detailed explanations of the various search and data output features (i.e., Search For, Single Vendor Search, Multiple Vendor Search, Business Category / Vendor Location Search, Select Fields For Output, Output Options) that may be used to create lists of potential vendors as well as retrieve detailed information on a specific vendor, click [CMBL/HUB Directory Search Tips](#).
