Annual Financial Report

For the Year Ended
August 31, 2011

November 18, 2011

The Honorable Rick Perry, Governor
Mr. John S. O'Brien, Director, Legislative Budget Board
John M. Keel, CPA, State Auditor

Gentlemen:

We are pleased to submit the *Annual Financial Report* for the Comptroller of Public Accounts, the Comptroller's Judiciary Section, the Comptroller Treasury, the Texas Safekeeping Trust Company and the State Energy Conservation Office for the year ending Aug. 31, 2011, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments*, the Comptroller does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the state of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Robert Chapa, manager of our Budget and Internal Accounting Division, at robert.chapa@cpa.state.tx.us or 463-4762.

Sincerely,

Susan Combs

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller of Public Accounts is an agency of the State of Texas.

The Comptroller's financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Comptroller's office has three major statutory duties. First, the Comptroller serves as the state's primary tax collector, responsible for collecting most major state taxes. Second, the Comptroller is the state's chief accountant, responsible for writing the state's checks and monitoring all spending by state agencies. Third, the Comptroller is the state's official revenue estimator, responsible for issuing an estimate of revenues that will be available to the state over the upcoming two-year budget period.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

This section of the report includes only those funds and accounts from which the Comptroller's own departmental activities are financed. The fiscal functions of the Comptroller's office are reported in separate sections of this report.

There are no component units in which the Comptroller of Public Accounts is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Fund (GAAP Fund Type 01)

The General Revenue Fund (Fund 0001) is the principle operating fund used to account for most of the state's general activities. It accounts for all financial resources except those required to be accounted for in other funds. The Federal American Recovery and Reinvestment Act (ARRA), Fund 0369, is the operating fund used to account for federal stimulus program funds received by the state.

Capital Assets Adjustment Fund Type

The Capital Assets Adjustment Fund (Fund 9998) will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment Fund (Fund 9997) will be used to convert governmental fund types' debt from modified accrual to full accrual.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. They are as follows: Unappropriated General Revenue (Fund 1000), Direct Deposit Correction Account (Fund 0980), Texasaver 401K plan (Fund 0942), Savings Bond Account (Fund 0901), Departmental Suspense (Fund 0900), TPASS Postage (Fund 0999), and Child Support Employee Deductions (Fund 8070).

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, capital lease obligations, and unpaid employee compensable leave. The activity is recognized in these fund types.

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

ASSETS, LIABILITIES, AND FUND BALANCES / NET ASSETS

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Current Receivables – Other

Other receivables include year-end revenue accruals. This account appears in governmental fund types.

Inventories

Consumable inventories include supplies and postage on hand at year-end. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Tangible Assets

Tangible assets include assets such as Furniture, Fixtures, Equipment and Vehicles. Tangible assets with an initial individual unit cost of more than \$5,000 and an estimated useful life in excess of one fiscal year are capitalized. These assets are capi-

talized at cost or, if not purchased, at appraised fair market value as of the date of acquisition. Purchases of assets by government funds are reported as expenditures.

Depreciation is reported on all “exhaustible” assets. Tangible assets are depreciated over the estimated useful life of the asset using the straight line method. Assets such as works of art or historical treasures are considered “inexhaustible” and are not depreciated.

Intangible Assets

Intangible assets include assets such as purchased or developed software. These are assets that lack in physical substance, are nonfinancial in nature and have an estimated useful life of more than one fiscal year.

Internally generated computer software with a total cost of more than \$1,000,000 or greater is capitalized. Purchased computer software is capitalized, if the aggregate cost of the software purchased, is greater than \$100,000.

Intangible software assets are amortized on an annual basis over the estimated useful life of the software using a straight line method.

Intangible software assets are reported using guidance from GASB Statement 51, *Accounting and Financial Reporting for Intangible Assets*, effective for the state of Texas as of September 1, 2009.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees’ Compensable Leave Balances

Employees’ Compensable Leave Balances represent the liability that becomes “due” upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

Capital Lease Obligations

Capital lease obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

FUND BALANCE/NET ASSETS

- Fund Balance/Net Assets – “Net assets” is the difference between fund assets and liabilities on the government-wide, proprietary and fiduciary fund statements. “Fund balance” is the difference between fund assets and liabilities on the governmental fund statements.
- Fund Balance Components – The fund balance amounts for governmental funds were reclassified in accordance with GASB 54. Amounts previously reported as reserved and unreserved are now reported as nonspendable, restricted, committed, assigned or unassigned.
 - Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact. The Nonspendable Fund Balance for this purpose represents the amount of supplies, postage and prepaid assets held to be used in the next fiscal year.
 - Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.
 - Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state’s highest level of decision making authority.

UNAUDITED
Comptroller of Public Accounts (304)

- Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. Fund Balance Assigned for this purpose represents encumbrances.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund. This represents the funds that can be carried forward for future operations.

INTERFUND ACTIVITIES AND BALANCES

The Comptroller's office has the following types of transactions between funds:

- Due From Other Agencies
- Federal Pass-Throughs and Transfers Between Agencies
- Transfers In and Transfers Out
- Legislative Transfer In and Legislative Transfers Out
- Interfund Receivables and Interfund Payables

The composition of the agency's Interfund activities and balances are presented in Note 12.

NOTE 2: Capital Assets

Revenue received from the sale of surplus property has been transferred to Unappropriated General Revenue in accordance with HB7, Section 20.

NOTE 3: Deposits, Investments and Repurchase Agreements

The Comptroller of Public Accounts is authorized by statute to make investments following the “prudent person rule.” There were no significant violations of legal provisions during the period.

Deposits of Cash in Bank

As of August 31, 2011, the carrying amount of deposits was \$25,000, as presented below:

- A. The carrying amount of \$25,000 for Cash in Bank represents the Comptroller’s travel advance fund.
- B. The bank balance of the Comptroller’s Office has been classified according to the following risk categories:
 1. **Category 1** – Insured or collateralized with securities held by the governmental entity or by its agent in the name of the governmental entity.
 2. **Category 2** – Collateralized with securities held by the pledging financial institution’s trust department or agent in the agency’s name.
 3. **Category 3** – Uncollateralized (which would include any deposits collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the governmental entity’s name).

Capital Lease Obligations

This is the capital lease obligation that was in place as of 8/31/2011 for software licenses for the ERP technology project, which is presented in Note 8.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller's Judiciary Section is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts Reporting Requirements for State Agencies.

The Comptroller's Judiciary Section is responsible for paying the salaries of the district judges and district attorneys of Texas. The agency also pays miscellaneous expenses incurred by the judges and District Attorneys as provided by the General Appropriations Act.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the Comptroller's Judiciary Section is financially accountable or any organization whose exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES

General Revenue Fund

The General Revenue Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that will build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

FUND BALANCE/NET ASSETS

- Fund Balance Components – The fund balance amounts for governmental funds were reclassified in accordance with GASB 54. Amounts previously reported as reserved and unreserved are now reported as nonspendable, restricted, committed, assigned or unassigned.
 - Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.
 - Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state’s highest level of decision making authority.
 - Assigned fund balance includes amounts constrained by the state’s intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

INTERFUND ACTIVITIES AND BALANCES

The Comptroller's Judiciary Section has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.

The composition of the agency's Interfund activities and balances are presented in Note 12.

NOTE 12: Interfund Activities and Transactions

As explained in Note 1 on Interfund Transactions and Balances there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as:

- Due From Other Agencies or Due To Other Agencies

UNAUDITED
Comptroller Judiciary Section (241)

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The Comptroller–Fiscal is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements of State Agencies.

This report applies to those funds, which the State Comptroller of Public Accounts is statutorily required to expend, transfer, allocate or administer as trustee. Included are the funds and accounts over which the Comptroller exercises statutory administrative control, which includes revenues, collected for the benefit of others. The operating activity of the Comptroller of Public Accounts (Agency 304) is included in a separate section of this report.

There are no component units in which the Comptroller–Fiscal is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34 *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

General Fund

The General Fund is used to account for all financial resources of the state except those that must be accounted for in another fund. Listed below are the agency’s General Funds and their purpose.

General Revenue Fund 0001 – To receive those revenues directed to be deposited to the General Revenue Fund and those revenues for which a specific fund has not been designated; such revenues to be used as the Constitution prescribes and the Legislature directs.

County and Road District Highway Fund 0057 – To take care of outstanding county and road district indebtedness assumed by the State along with the highway system. The Fund also receives allocation of gasoline taxes up to \$7.3 million each fiscal year, which in turn is distributed to the counties of the State.

Law Enforcement Officer Standards and Education Fund 0116 – To receive court costs collected from defendants convicted under certain sections of the Penal Code.

Compensation to Victims of Crime Auxiliary Fund 0494 – This is used only for the payment of compensation to claimants under the Victims of Crime Act.

Economic Stabilization Fund 0599 – To receive transfer of one-half of any unencumbered positive balance in the General Revenue Fund (0001) as of the last day of the preceding biennium and any other money appropriated to the fund by the legislature. The fund may be used to eliminate temporary cash deficiency in the General Revenue Fund (0001).

Special Events Trust Fund 0836 – If special event plan is approved and host community selected as the site of a special event, comptroller shall deposit amount requested in the special event plan from state tax receipts as soon as practicable after the taxes are collected.

Other Events Trust Fund 0869 – Used to fulfill joint obligations of the state and endorsing municipality or county to a site selection organization under a games support contract.

Agency Trust and Suspense Fund 0900 – To provide a temporary depository for money held in suspense pending final disposition. Items held in the fund are cleared to the various Special Revenue Funds or the General Revenue Fund, or refunded to the payer.

Sexual Assault Program Fund 5010 – Created to receive parole supervision and probation fees collected under arts. 42.12, 22(e) and art 42.18 8(p), C.C.P. and gifts, grants and money appropriated for grants to maintain or expand existing services.

Tobacco Settlement Fund 5040 – To receive settlement money resulting from the final judgment in the State of Texas. The American Tobacco Company, et. al., civil action no. 5:96cv91. These funds are distributed to appropriate agencies and funds as identified in the court ordered settlement.

Jobs and Education for Texans (JET) Fund No. 5143 – To award grants to expand existing programs and develop new programs that prepare students for careers in high-demand occupations, including start-up costs associated with career and technical education courses, and to provide scholarships for students in career and technical programs, entified in the court ordered settlement.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Listed below are the agency's Special Revenue Funds and their purpose.

Property Tax Relief Fund 0304 – Special fund in the state treasury outside the general revenue fund. The proceeds of the fund are from allocations of the computation of motor vehicle sales tax, collection of all tobacco products tax increases and calculated amounts from franchise taxes. The intent of the fund will be to reduce school district property taxes.

Binding Arbitration Trust Fund 0838 – This is used to retain and pay the administrative costs in binding arbitration cases of property value appeals initiated by property owners. Monies are moved to this special revenue fund from the same agency fund for payment of administrative costs

International Fuels Tax Agreement (IFTA) Trust Fund 0886 – To receive motor fuels taxes estimated to be due to other jurisdictions or otherwise subject to refund during the fiscal year, penalties and interest on those taxes due other jurisdictions, licensing fees, and other costs collected under the agreement.

FIDUCIARY FUNDS

Private-Purpose Trust Funds

Private-Purpose Trust funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments. Listed below are the agency's Private-Purpose Trust funds and their purpose.

Private-Purpose Tobacco Settlement Political Subdivision Trust Fund 0872 – To hold a portion of the tobacco settlement money designated for the exclusive benefit of political subdivisions and will be distributed to political subdivisions as directed in the settlement.

Flood Area School and Road Trust Account 0903 – To hold money allocated by the Federal Government to be distributed to counties and political subdivisions of the state based on the tax rate applied to lands acquired for flood purposes.

Agency Funds

Agency Funds are used to account for assets held as an agent for individuals, private organizations, and other government entities. These funds are custodial in nature and do not involve measurement of results of operations. Listed below are the agency's Agency Funds and their purpose.

Sporting Events for Municipality/County Trust Fund 0830 – For use by the comptroller to deposit a portion of the state and local sales tax, hotel and mixed beverage taxes for an approved major sporting or athletic event sanctioned by a site selection organization.

Fireworks Tax Securities Trust Fund 0862 – An applicant for a fireworks sales tax permit or for registration as a retailer must file adequate security for the payment of the taxes imposed by this chapter.

Customs Brokers Bond / Security Trust Fund 0866 – Created to hold bonds or securities from which the customs broker intends to issue exemption certificates.

Texas Racing Commission Security Trust Fund 0868 – Created to hold securities posted by each racing association as required by the comptroller rule to ensure payment of the state's portion of the pari-mutuel pool.

Other Events Trust Fund 0869 – To retain a portion of the state and local sales, hotel, and mixed beverage taxes, if a site is selected, in an amount as determined by the comptroller, to the presentation of a game and related events. Used to fulfill joint obligations of the state and endorsing municipality or county to a site selection organization under an event support contract.

Local Tax Collections for Sports / Community Venue Project Trust Fund 0874 – To hold taxes collected by the Comptroller under an inter-local contract for a local government until they are returned to the local government's venue project fund. Taxes are to be used for sports or community venue projects.

City, County, MTA and SPD Sales Tax Trust Account 0882 – To record the receipt of local sales and use tax collected by the Comptroller for each city, county, metropolitan transit authority and special purpose district authorizing the collection.

International Fuels Tax Agreement (IFTA) Guarantee Trust Fund 0884 – To hold in trust money or securities deposited with the Comptroller by participants in the International Fuels Tax Agreement.

Departmental Suspense Fund 0900 – To provide a temporary depository for money held in suspense pending final disposition. Items held in the fund are cleared to the various Special Revenue Funds or the General Revenue Fund, or refunded to the payer.

Motor Fuel Distributors Bond Guaranty Trust Fund 0904 – To hold in trust money or securities deposited by motor fuel distributors, in lieu of surety bonds, to insure complete and faithful performance by the distributor of all conditions and requirements imposed upon him by the laws pertaining to motor fuel and motor fuel distributors.

Mixed Beverage Tax Guaranty Trust Fund 0906 – To hold in trust money or securities deposited by mixed beverage permittees.

Sales Tax Guaranty Trust Fund 0962 – To receive cash and/or other negotiable securities pledged to guarantee payment of Sales Tax liabilities.

Direct Deposit Correction Fund 0980 – To hold money returned by financial institutions which had been transmitted for direct deposit where problems prevented credit are given to individual depositors until the agency issuing the original payment makes the correction by transferring the funds back to the original issuing fund or the person for whom the original payment was made is refunded the money.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures are recognized in the accounts reported in the financial statements. Governmental fund types are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred. Exceptions are unpaid employee compensable leave, and the unmatured debt service (principal and interest) on general long-term debt, long-term capital leases, and long-term claims and judgments, which are not recognized until actual payment is made.

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Unobligated appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Since the Comptroller reports the entire cash balance for the general fund, budgetary accounts are eliminated for the Annual Financial Report.

ASSETS, LIABILITIES AND FUND EQUITY

Assets

Taxes Receivables

Amounts shown as taxes receivable represent various state taxes due to the state at August 31, 2011.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Liabilities

Other Liabilities represent intergovernmental taxes and the value of unclaimed property at the balance sheet date.

Deferred Revenue

Amounts shown as deferred revenue represent tax revenues earned but not available and resources received but not earned, i.e., prepaid sales taxes, at August 31, 2011. A breakdown by Tax Type is available on Schedule 5.

Fund Balance/Net Assets

The difference between fund assets and liabilities is ‘Net Assets’ on the government-wide and fiduciary fund statements and the ‘Fund Balance’ is the difference between fund assets and liabilities on the governmental fund statements.

Restricted Fund Balance

This fund balance is reported as restricted when constraints placed on the use of resources are either (a. externally imposed by laws and regulations of other governments or (b. imposed by law through constitutional provisions or enabling legislation.

Unassigned Fund Balance

This is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and has not been restricted, committed or assigned for specific purposes within the general fund. The general fund is the only fund that can report a positive unassigned fund balance.

INTERFUND TRANSACTIONS AND BALANCES

The Comptroller–Fiscal has the following transactions between and within state funds.

Transfers: Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund.

NOTE 2: Capital Assets

Capital Assets are not shown on the Governmental Fund Financial Statements, but rather are included as governmental activities in the Government-wide Financial Statements. A summary of changes in Capital Assets for the year ended August 31, 2011, is presented below:

NOTE 14: Adjustments to Fund Balances and Net Assets

During fiscal 2011, a reclassification was made which required the restatement of fund balance.

A restatement was made to reclassify beginning balance in the County and Road District Highway Fund (0057). The fund balance of \$229,118.53 was reclassified from a special revenue fund to general revenue fund type.

NOTE 15: Contingent Liabilities

PROTEST TAX PAYMENTS:

As of Aug. 31, 2011, pending litigation filed by taxpayers seeking refunds of state taxes total \$647.1 million. The taxes protested include sales, franchise, insurance and other taxes. Although the outcome of these cases cannot presently be determined, adverse ruling in some of them could result in significant additional refunds.

NOTE 18: Management Discussion and Analysis

The General Revenue Fund 0001 cash balance increased from \$(3.5) billion balance in fiscal 2010 to \$(2.7) billion in fiscal 2011. The increase is attributable to increase in tax collections being higher than the increases in statewide expenditures. This agency provides legislative funding for state-wide agency's expenditures and this is reflected in its legislative transfers-out. As disclosed in Note 27, a portion of the accrued taxes reported in this agency's report will not be finalized until the CAFR is completed.

The Economic Stabilization Fund (ESF), with net transfers out of \$2.7 billion to the general revenue fund, had an ending cash balance of \$5.0 billion. The Texas Constitution mandates that if oil or natural gas taxes exceed the net amount received in fiscal 1987, an amount equal to 75 percent of the excess must be transferred to the state's ESF from the general revenue fund. In addition to the oil and gas transfer, one half of any unencumbered balance in fund 0001 at the close of the biennium must be transferred to the ESF. The transfer is made in the subsequent year, thus in fiscal year 2010, both oil and gas taxes exceeded the amount collected in fiscal 1987 and fund 0001 had an unencumbered balance, resulting in a transfer in of \$450 million in fiscal 2011. The transfer out of \$3.2 billion from the ESF to the general revenue fund was for appropriation purposes.

The Property Tax Relief Fund had no ending cash balance. This year's revenues of \$2 billion was transferred out to the Foundation School Fund 193 to pay for property tax relief.

Tax collections, the major source of revenue reported in this agency experienced a 9.9% increase from fiscal 2010. This was a result of statewide increases in Sales Taxes (9.4%), Franchise Taxes (2.0%), Natural Gas Production Tax (2.0%) and other increases in the remaining taxes. Oil production and regulation taxes, however, had a significant increase of 46.0% from fiscal 2010. Interest and Investment Income on a statewide basis decreased 2.3% due to loss on investments and decreased interest rates, however, the decrease was much lower than in the previous four years.

NOTE 20: Stewardship, Compliance and Accountability

This section of the report reflects the activities of the Comptroller–Fiscal function (Agency 902) in the General Revenue Fund (0001), the Economic Stabilization Fund (0599), the Flood Area School and Road Expendable Trust Fund (0903), and other funds. The entire activity of the State’s General Revenue Fund will be reflected in the State of Texas Comprehensive Annual Financial Report for the Year Ended August 31, 2011.

NOTE 21: Tobacco Settlement

The state of Texas settled a lawsuit against certain tobacco manufacturers in 1998. The settlement included monetary and injunctive relief. The settling tobacco manufacturers agreed to remit annual payments to the state. Estimates made at the time of the agreement projected that these payments could total \$15.1 billion over the first 25 years of the agreement. The court-ordered annual payment amounts are subject to adjustments on the tobacco companies’ domestic cigarette sales, the general consumer inflation rate, the profitability of the tobacco companies and any other court-ordered factors. A revenue accrual and deferred revenue of \$291.9 million has been calculated on estimated sales from Jan. 1 to the end of the fiscal year. Tobacco settlement revenues were \$483.5 million in fiscal 2011 and \$480.81 million in fiscal 2010. Cumulative actual tobacco settlement revenues as of fiscal 2011 were \$7.1 billion.

NOTE 27: Taxes Receivables/Payables

A. Taxes Receivable

The Comptroller-Fiscal collects certain taxes for the State of Texas. Taxes receivable represent amounts due to the State at August 31, for revenues earned in the current fiscal year that will be collected in the future. The receivables have been recorded net of allowances for uncollectible accounts. Revenue is recorded on the governmental fund financial statements using the modified accrual basis of accounting for amounts due to the State of Texas at August 31 that are considered as “available” (e.g. received by the State within approximately 60 days after that date). Revenue earned but not “available” at August 31 is recorded as deferred revenue. Prepaid taxes are also recorded as deferred revenue.

On the government-wide financial statements a corresponding amount is recorded as revenue using the accrual basis of accounting, which includes revenue earned at fiscal year end regardless if it is available. Deferred revenue includes only the prepaid taxes that have not been earned by fiscal year end. Taxes receivable are the same for both modified and full accrual basis.

Taxes receivable have been netted against any refunds payable and estimated uncollectable taxes with the exception of the Franchise Tax and Oil and Gas Production Tax. Refunds payable will be shown separately for the Franchise Tax and Oil and Gas Production Taxes. The full accrual basis is reported on the government-wide financial statements in the *State of Texas Comprehensive Annual Financial Report*.

As of November 20, 2011 the taxes receivable and deferred revenue balances for the Franchise Tax had not been finalized. The Franchise Tax Revenue and Tax Receivable will be finalized after the final returns for the tax due May 15, 2011 are processed. The tax returns are due November 15, 2011. Adjustments will be made if necessary prior to publication of the CAFR.

Taxes receivable, as reported in the General Fund (Exhibit I), are detailed by tax type as follows:

Tax Type	Net Taxes Receivable
Sales and Use Tax	\$ 1,407,904,277.98
Motor Vehicle & MFG Housing	112,817,638.19
Motor Fuels	274,041,984.71
Oil & Natural Gas Production	284,307,607.33
Franchise	13,055,658.55
Insurance	168,427,644.40
Cigarette & Tobacco	18,073,144.94
Other	153,147,106.66
Total Net Taxes Receivable	<u>\$ 2,431,775,062.76</u>
As Reported on the Financial Statements	
Current Taxes Receivable	\$ 2,625,575,226.18
Noncurrent Taxes Receivable	29,091,750.60
Total Taxes Receivable	<u>\$ 2,654,666,976.78</u>
Refunds Payable	\$ (222,891,914.02)
Total Net Taxes Receivable	<u>\$ 2,431,775,062.76</u>

NOTE 28: Contested Taxes

Taxpayers may petition for a formal hearing before an independent administrative law judge if they wish to challenge a tax liability assessed by the state. If the request for a determination hearing is received within a specified time, the taxpayer does not have to pay the tax until a final decision is reached. Collectability of these assessments is dependent upon the decisions of administrative law judges. These assessments are not recognized as tax revenue until the administrative hearing is final. Therefore, these amounts are not included in the receivables reported in the financial statements. As of August 31, 2011, the redetermination hearings process had an estimated \$1.7 billion.

NOTE 29: Deferred Revenue

The deferred revenue in general revenue of \$378 million consists of \$141 million tax prepayments that have not been earned, and \$237 million revenues earned but not available to finance expenditures of the current fiscal period.

NOTE 30: Unclaimed Property

The State holds certain property that is escheated to the State in the absence of legal claimants or heirs. Although a rightful owner can reclaim escheat property unto perpetuity, large portions of escheated property are never reclaimed. Additionally, the revenue generated from escheat property has always exceeded the amount needed to pay current claims. In fiscal year 2011, the unclaimed property fund received \$488 million of gross revenues, made \$176 million of claimant payments and transferred \$312 million to the general fund. The claimant liability in the general fund of \$187 million represents the probable amount that will be reclaimed and paid to claimants in the following year. As of August 31, 2011, a balance of \$191 million in marketable securities and mutual funds were held in trust. The State also holds an insignificant amount of personal property such as jewelry.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

GENERAL INTRODUCTION

The Comptroller - Treasury Fiscal is an agency of the State of Texas and its financial records comply with the state statutes and regulations. This includes compliance with the Comptroller of Public Accounts Reporting Requirements of State Agencies.

Effective September 1, 1996, the constitutional office of the Treasurer was abolished and the powers, duties, obligations, rights and contracts of the Treasurer was transferred to and assumed by the State Comptroller of Public Accounts.

There are no component units in which the Comptroller - Treasury Fiscal is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES

General Fund

The general fund is used to account for all financial resources of the state except those required to be accounted for in another fund.

Permanent Funds

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the state’s programs.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets held as an agent for individuals, other government entities, and/or other funds. These funds are custodial in nature and do not involve measurement of results of operations.

Private-Purpose Trust Funds

Agencies use private-purpose trust funds to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. All governmental fund types and agency funds are accounted for on the modified basis of accounting. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred. Exceptions are unpaid employee compensable leave, and the un-matured debt service (principal and interest) on general long-term debt, long-term capital leases, and long-term claims and judgments, which are not recognized until actual payment is made.

BUDGETS AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (The General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES AND FUND BALANCES/NET ASSETS

ASSETS

Investments

Investments are stated at fair value in all funds in accordance with GASB Statement 31 – Accounting and Financial Reporting for Certain Investments and for External Investment Pools.

Securities Lending Collateral

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Interest and Dividend Receivables

This includes interest and dividends accrued on investments at year-end that will not be deposited to the Fund until after the fiscal year.

Investment Trade Receivables

This represents investment sales that occurred on or before fiscal year end for which cash payment will be received after fiscal year end.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Notes Payable

State of Texas Tax and Revenue Anticipation Notes are recorded at par. The bond proceeds are accounted for as an “Other Financing Source” in the Tax And Revenue Anticipation Note Fund 577 when received, and expenditures for payment of principal and interest are recorded in the Tax And Revenue Anticipation Note Fund 577 when paid.

Investment Trade Payables

This represents the liability for investment purchases that occurred on or before fiscal year end for which cash payment will be received after fiscal year end.

FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is ‘Net Assets’ on the government-wide, proprietary and fiduciary fund statements, and the ‘Fund Balance’ is the difference between fund assets and liabilities on the enterprise fund statements.

Reservations of Fund Balance

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

Unreserved/Undesignated

This represents the un-appropriated balance at year end.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

INTERFUND ACTIVITIES AND BALANCES

The Treasury has the following types of transactions between funds:

- (1) Transfers: Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund

The composition of the agency’s Inter-fund activities and balances are presented in Note 12.

NOTE 2: Capital Assets

(Not Applicable)

NOTE 3: Deposits, Investments & Repurchase Agreements

All monies in funds established in the Treasury by the State Constitution or by an act of the Legislature are pooled for investment purposes. All monies of the Trust Company are invested according to Section 404.106 of the Government Code.

INVESTMENT AUTHORITY

Section 404.024 of the Government Code permits the investment of these funds in the following instruments:

1. fully collateralized time deposits in banks and savings and loan associations domiciled in the state which have been approved by the State Depository Board to receive state deposits;
2. direct security repurchase agreements;
3. reverse repurchase agreements;
4. direct obligations of, or obligations the principal and interest of which are guaranteed by the United States, its’ agencies and instrumentalities;
5. bankers’ acceptances that: (i) are eligible for purchase by the Federal Reserve System, (ii) do not exceed 270 days to maturity, and (iii) are issued by a bank that has received the highest short-term credit rating by a nationally recognized investment firm;
6. commercial paper that has received the highest short-term credit rating by a nationally recognized investment rating firm and does not exceed 270 days to maturity; and,

UNAUDITED
Comptroller Treasury – Fiscal (311)

7. contracts written by the Comptroller in which the Comptroller grants the purchaser the right, for a fee, to purchase securities in the Treasury’s marketable securities portfolio at a specified price over a specified period. These contracts are commonly known as covered call options. Uncovered option trading is specifically prohibited.

No more than 20% of the aggregate funds on deposit in financial institutions at any time may be placed by the Comptroller in savings and loan associations.

Repurchase and reverse repurchase agreements may be entered into by the Comptroller only with state or national banks doing business in Texas or primary dealers approved by the Federal Reserve System.

There were no significant violations of legal provisions during the period.

DEPOSITS OF CASH IN BANK

Custodial Operations

As of August 31, 2011, the carrying amount and the total bank balance of deposits is presented below:

Custodial Operations	
Cash in Bank – Carrying Amount	\$ 1,046,182,226.10
Total Cash in Bank	<u>\$ 1,046,182,226.10</u>

The Trust Company’s contract with the Federal Reserve Bank permits the Trust Company to wire transfer funds for the purpose of facilitating investment transactions. Correspondingly, a minimum cash balance is maintained in the account to generate earnings credits sufficient to offset the costs of the services received. As these investment transactions occur, the Federal Reserve Bank requires that the Trust Company maintain a positive cash balance in the account intraday and at the end of the day. The Trust Company met those requirements throughout Fiscal Year 2011.

Collateralization and Risk Categorization – In accordance with state law, all amounts deposited in financial institutions above the amounts insured by the Federal Deposit Insurance Corporation are fully collateralized 105% by the pledging, to the Comptroller, of securities valued at market, excluding accrued interest. Generally the list of eligible securities includes all U. S. Treasury and most Agency Obligations, including certain mortgage backed securities pledged @125%, and securities issued by state agencies and political subdivisions within the State. All securities pledged to the Comptroller must be held by a third-party custodian bank doing business in the State through a main office or one or more branches, any Federal Reserve Bank, the Texas Treasury Safekeeping Trust Company, any Federal Home Loan Bank or in the vault of Treasury Operations at the State Comptroller of Public Accounts.

Securities pledged as collateral on August 31, 2011 were categorized as follows:

Based on an opinion letter received by the Treasury from the Federal Deposit Insurance Corporation, it is the policy of the Treasury to collateralize bank deposits based on a collected funds basis.

During fiscal year 2011 no depository holding state funds failed.

All securities pledged to the Trust Company must be held by the Trust Company, a third-party bank that is an approved depository and approved custodian, any Federal Reserve Bank, Federal Home Loan Bank or in the vault of the Treasury. The Trust Company has contracted with financial institutions to collateralize Trust Company deposits in excess of depository insurance.

State statute permits depository institutions to select the bank that may serve as their third-party custodian for collateral pledged by that institution to the Comptroller. These banks must be approved depositories and approved custodians with capital and surplus of \$5,000,000 or more.

All deposits in financial institutions for Comptroller custodial operations, as of August 31, 2011 were fully secured by FDIC insurance and securities pledged to the Comptroller.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. Pursuant to section 404.024(a) and (b), treasury funds may be invested in fully collateralized repurchase agreements secured by obligations of the U.S., its agencies, or Government Sponsored Enterprises (GSEs), including mortgage-backed securities of such agencies and GSEs, as set out in section 404.001 of the Government Code. The Comptroller may purchase direct obligations of or obligations, the principal and interest of which are guaranteed by the U.S.; and direct obligations of, or obligations guaranteed by U.S. agencies or GSEs. Mortgage-backed securities are eligible for purchase except those specifically prohibited by section 404.024 (e) of the Government Code. Treasury funds may invest in commercial paper that, has received the highest short-term credit rating by a nationally recognized investment rating organization or “NRSRO”. “Highest short-term credit rating” includes at least one of the following short-term credit ratings, Moody’s (P-1), Standard & Poor’s (A-1), or Fitch, Inc. (F-1). Money market funds must be rated AAAM by a NRSRO. The Government mortgage-backed securities, that are not rated, are issued by Government Sponsored Enterprises that are rated AA+. The Treasury portfolio is rated AAAf by Standard & Poor’s. The following table lists Standard & Poor’s credit rating by investment type for the Treasury Pool securities that are subject to credit risk.

Reverse Repurchase Agreements. The Treasury Pool may enter into reverse repurchase agreements for up to 35% of the pools assets. The Treasury Pool’s aggregate amount of reverse repurchase agreement obligations at August 31, 2011 was \$65,652,732 including accrued interest. The aggregate fair value of the securities underlying those agreements, including accrued interest, was \$65,840,276 The credit exposure at year end was \$187,544.

Covered Call Options. The Treasury Pool writes covered call options on treasury notes owned by the pool. When the treasury writes an option, the premium received is recorded as a liability and is adjusted to the current market value of the option written on a monthly basis. Premiums received from writing options that expire unexercised are treated as realized gains. If the premium received is greater than the amount paid when closing a position, the difference is treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Treasury Pool has a realized gain or loss. The Treasury Pool, as the writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. The amount of premiums earned on covered call options in fiscal year 2011 is \$12,121,094. The fair value of outstanding covered call options as of August 31, 2011 is \$1,953,125.

Credit Risk. Corporate obligations must be rated investment grade by at least one NRSRO and not rated below investment grade by any NRSRO. Short-term securities must be rated in the highest rating category by an NRSRO. The average quality rating of the high-yield fixed income portfolio shall be B1/B+ or higher. All high-yield securities when purchased must be rated at least CCC. The following schedule lists Standard & Poor’s credit rating by investment type for the Endowment Fund securities that are subject to credit risk. The high-yield securities not rated by Standard & Poor’s are rated Ba or B by Moody’s. The Investments in the short-term investment fund are investments in Northern Trust’s Institution Government Portfolio fund which is rated Aaa by Moody’s.

Investment in the Trust Company – Section 404.105 of the Government Code authorizes the investment of state funds in the Trust Company. Through an order of the State Depository Board, dated October 31, 1986 the Comptroller has invested \$1,000,000 in the Trust Company. These funds are invested by the Trust Company in obligations authorized by law for the investment of funds held and managed by the Comptroller. Any net earnings attributable to this investment are credited and allocated annually to the Comptroller. The Trust Company’s total contributed capital consists of one share of no par common stock for \$1,000,000 owned by the Comptroller. One share was authorized and issued.

NOTE 4: Short-Term Debt

Pursuant to Subchapter H of Chapter 404 of the Texas Government Code, the Comptroller is authorized to issue, sell, and deliver Tax and Revenue Anticipation Notes (TRAN) on behalf of the State. The TRAN are valid and binding obligations of the State, payable in accordance with the terms of the Comptroller’s TRAN order. The TRAN are payable from transfers from the General Revenue Fund to a payment account. On August 24, 2010 (with an issue date of September 01, 2010), \$7,800,000,000.00 in State of Texas Tax and Revenue Anticipation Notes, Series 2010 were sold for the purpose of coordinating the cash flow of the State for the fiscal year ended August 31, 2011. Issuance of the TRAN also enhanced the State’s ability to make timely payments of expenditures which are payable from the General Revenue Fund. The TRAN matured on August 31, 2011 and bore an interest rate of 2.00% and was priced to yield at 0.34% as determined by the bids of the initial purchasers.

Gross note proceeds were \$7,929,425,529.00. Interest and other investment income on gross TRAN proceeds were \$66,532,789.14. Debt service payments included \$ 7,800,000,000.00 for principal and \$156,000,000.00 in interest expense.

On August 23, 2011, the State Comptroller sold \$9,800,000,000.00 of State of Texas Tax and Revenue Anticipation Notes, Series 2011A. The TRAN is dated September 1, 2011 and matures on August 31, 2012. The TRAN bears interest at 2.50% and were priced to yield 0.27310%. The notes are not subject to redemption prior to maturity.

On August 23, 2011, good faith funds in the amount of \$ 98,000,000.00 were received by the Comptroller and on September 1, 2011 the balance of the note proceeds, in the amount of \$ 9,919,046,960.00, were received.

NOTE 27: Cigarette Tax Recovery Trust Fund

The Cigarette Stamp Tax Recovery Trust Fund (the “Trust Fund”) was created pursuant to Section 154.051 of the Texas Tax Code. On September 1, 1987, the Trust Fund replaced surety/payments bonds as a source of security for the State’s extension of credit to purchasers of cigarette tax stamps. The Trust Fund is maintained outside Treasury. The Trust Fund operates much like a self-insurance pool in that distributors deposit 20% of their desired line credit. The pool of deposits insures the State from loss in the event of default by any distributors. The distributors determine their respective level of participation.

NOTE 28: Texas Treasury Safekeeping Trust Company

The Texas Treasury Safekeeping Trust Company (Texas Trust) was incorporated as a special-purpose trust company as outlined within section 404.102 of the Government Code. The purposes of the Texas Trust are to provide a means for the Comptroller to obtain direct access to services provided by the Federal Reserve System and to enable the Comptroller to manage, disburse, transfer, safekeep, and invest funds and securities more efficiently, economically and in accordance with the applicable governing investment guidelines.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

GENERAL INTRODUCTION

The Texas Treasury Safekeeping Trust Company (“Texas Trust”) was created in 1986 by the 69th Legislature to provide a separate legal entity for the State Treasurer. The incorporation of the trust company was necessary to obtain direct access to services provided by the Federal Reserve System. The 77th Legislature amended the Texas Trust statute and the Texas Trust began operations as a separate State entity on September 1, 2001. The Comptroller of Public Accounts (Comptroller) is the single shareholder of the Texas Trust and is charged with managing the Texas Trust. Texas Trust is one of only two state-owned trust companies with direct access to the Federal Reserve System.

The Texas Trust is authorized to manage, disburse, transfer, safekeep and invest funds and securities provided by statute or belonging to state and local entities and gives the Comptroller direct access to services provided by the Federal Reserve System.

This section of the report includes only those funds and accounts from which the Texas Trust’s own departmental activities are financed. The Texas Trust’s fiscal function (Agency 930) is reported in a separate section of this report.

Due to the significant changes related to Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the Texas Trust is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity. The funds and account groups used to reflect the Agency’s transactions are as follows:

Proprietary Fund Types

Enterprise Funds

Enterprise funds are used to report any activity for which a fee is charged to external users for services such as investment management and custodial services. The Texas Trust accounts for its daily operations using an enterprise fund. Operating revenues result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as investment earnings, result from nonexchange transactions or ancillary activities.

Fiduciary Fund Types

Agency Funds

Agencies use agency funds to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private

organizations, or other governments. The Texas Public Finance Authority Bond Escrow is used to hold funds for various defeased or refunded bonds.

External Investment Trust Funds

Agencies use external investment trust funds to account for the state's external portion of investment pools reported by the sponsoring government. The Texas Government Investment Pools (TexPool and TexPool Prime) are local government investment pools administered by the Texas Treasury Safekeeping Trust Company – Comptroller's office. The investor base consists of cities, counties, school districts, institutions of higher education, special districts, and other public entities of Texas.

BASIS OF ACCOUNTING

The Texas Trust financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. All enterprise fund types are accounted for using the accrual basis of accounting. This includes unpaid Employee Compensable leave. Revenues are recognized when they become both measurable and available. Expenditures are generally recognized when the related fund liability is incurred.

The Texas Trust has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement Number 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting, which specifies that in addition to adopting all applicable GASB pronouncements, the Texas Trust has adopted Statements and Interpretations of the Financial Accounting Standards Board, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure issued prior to November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Texas Trust has elected to follow only GASB Standards issued subsequent to November 30, 1989.

ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Investments

Investments are reported at fair value based upon quoted market prices, with the change in fair value of investments captioned as Net Increase (Decrease) in the Fair Value of Investments, and interest income reported at the relevant stated interest rate.

NON-CURRENT RESTRICTED CASH AND CASH EQUIVALENTS

The Texas Trust maintains an account with the Depository Trust Company (DTC). In accordance with the agreement between DTC and the Texas Trust, \$89,797.00 in cash was held at DTC as of August 31, 2011, in order to maintain the account.

The Texas Trust has agreed to maintain a \$34,000,000 clearing balance within its Federal Reserve account. Earnings on the clearing balance are used to offset fees associated with its use of Federal Reserve services. The Texas Trust Federal Reserve account balance reported in Restricted cash on August 31, 2011 was \$25,999,966.25 from the Texas Trusts' Enterprise Fund. \$8,000,000.00 is reported in the Treasury Pools' cash in bank.

Non-Current Restricted Investments

The Texas Trust has a balance of \$53,424.33 in stock with the Depository Trust Company as of August 31, 2011.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 for furniture and equipment and building and building improvements of more than \$100,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized

UNAUDITED
Texas Treasury Safekeeping Trust Company (930)

at cost or, if any purchased, at appraised fair value as of the date of acquisition. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees' Compensable Leave

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the enterprise fund statements.

Invested In Capital Assets, Net Of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

NOTE 3: Deposits, Investments & Repurchase Agreements

All monies in funds established in the Texas Trust by the State Constitution or by an act of the Legislature are pooled for investment purposes. All monies of the Trust Company are invested according to Section 404.106 of the Government Code.

1. Investment Authority

A. Section 404.024 of the Government Code permits the investment of these funds in the following instruments:

1. fully collateralized time deposits in banks and savings and loan associations domiciled in the state which have been approved by the State Depository Board to receive state deposits;
2. direct security repurchase agreements;
3. reverse repurchase agreements;
4. direct obligations of, or obligations the principal and interest of which are guaranteed by the United States, its' agencies and instrumentalities;
5. bankers' acceptances that: (i) are eligible for purchase by the Federal Reserve System, (ii) do not exceed 270 days to maturity, and (iii) are issued by a bank that has received the highest short-term credit rating by a nationally recognized investment firm;
6. commercial paper that has received the highest short-term credit rating by a nationally recognized investment rating firm and does not exceed 270 days to maturity;
7. and, contracts written by the Comptroller in which the Comptroller grants the purchaser the right, for a fee, to purchase securities in the Texas Trust's marketable securities portfolio at a specified price over a specified period. These contracts are commonly known as covered call options. Uncovered option trading is specifically prohibited.

B. No more than 20% of the aggregate funds on deposit in financial institutions at any time may be placed by the Comptroller in savings and loan associations.

C. Repurchase and reverse repurchase agreements may be entered into by the Comptroller only with state or national banks doing business in Texas or primary dealers approved by the Federal Reserve System.

2. There were no significant violations of legal provisions during the period.

3. DEPOSITS OF CASH IN BANK

A. **Collateralization and Risk Categorization** – In accordance with state law, all amounts deposited in financial institutions above the amounts insured by the Federal Deposit Insurance Corporation are fully collateralized by the pledging, to the Texas Trust, of securities valued at market, excluding accrued interest. Generally the list of eligible securities includes all U.S. Government and most Agency Obligations, including certain mortgage backed securities issued by state agencies and political subdivisions within the State. All securities pledged to the Texas Trust must be held by any Federal Reserve Bank or one of its branches or the Texas Trust.

Securities pledged as collateral on August 31, 2011 were categorized under the Political Subdivision Securities, Moody's Investors Service Ratings AAA or U.S. Government Securities as U.S. Treasury Bills or U.S. Treasury Notes and Bonds.

The Trust Company's contract with the Federal Reserve Bank permits the Trust Company to wire transfer funds for the purpose of facilitating investment transactions. Correspondingly, a minimum cash balance is maintained in the account to generate earnings credits sufficient to partially offset the costs of the services received. As these investment transactions occur, the Federal Reserve Bank requires that the Trust Company maintain a positive cash balance in the account intraday and at the end of the day.

4. INVESTMENTS

As of August 31, 2011 the carrying and fair value of investments are presented below. All securities are insured or registered by the Texas Trust or its agent in the Texas Trust's name. Therefore there is no custodial credit risk.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its Obligation. The Trust Company only invests in overnight Repurchase Agreements which are collateralized by US Government Securities, US Government Agencies or Government Sponsored Enterprises. TextPool and TextPool Prime portfolios are designed and managed to ensure that they maintain a AAAM rating (or the equivalent) by a nationally recognized statistical rating organization ("NRSRO"). As of August 31, 2011 TextPool Prime's investments in commercial paper were rated A-1 by Standard & Poor's, P-1 by Moody's Investors Service, and F-1 by Fitch ratings. Standard & Poor's ranks both TextPool and TextPool Prime with the highest principal stability rating of AAAM.

Changes in Long-Term Liabilities

During the year ended August 31, 2011, the following changes occurred in liabilities.

Business-Type Activities	Balance 9/1/10	Additions	Reductions	Balance 8/31/11	Amounts Due Within One Year
Compensable Leave	\$606,528.89	\$477,311.25	\$479,908.87	\$603,931.27	\$344,692.67

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in Governmental and/or Expendable Trust fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

NOTE 10: Deferred Compensation

State employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in the TEX. GOV'T. CODE ANN., sec 609.001. Two plans are available for employees' deferred compensation plan. Both plans are administered by the Employees Retirement System.

The state's 457 plan complies with the Internal Revenue Code Sec. 457. Deductions, purchased investments and earnings attributed to the 457 plan are the property of the state subject only to the claims of the state's general creditors. Participant's rights under the plan are equal to those of the general creditors of the state in an amount equal to the fair market value of the 457 account for each participant.

The state has no liability under the 457 plan and it is unlikely that plan assets will be used to satisfy the claims of general creditors in the future. The state also administers another plan, 'Texsaver' created in accordance with Internal Revenue Code Sec. 401(k). However, the assets of this plan do not belong to the state nor does the state have a liability related to this plan.

The Texas Treasury Safekeeping Trust Company (“Texas Trust”) was created in 1986 by the 69th Legislature to provide a separate legal entity for the State Treasurer. The incorporation of the trust company was necessary to obtain direct access to services provided by the Federal Reserve System, namely wire and custody services, and resulted in cost savings to the State of Texas. Texas Trust is one of only two state-owned trust companies with direct access to the Federal Reserve System.

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

ENTITY

The State Energy Conservation Office (SECO) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts Reporting Requirements for State Agencies.

The function of the State Energy Conservation Office is to promote and provide for the efficient use of energy, while protecting human health and safety, and the environment. SECO administers and delivers a variety of energy efficiency and renewable programs that significantly impact energy cost and consumption in the institutional, industrial, transportation and residential sectors.

Due to the significant changes related to Governmental Accounting Standards Board Statement No.34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units in which the State Energy Conservation Office is financially accountable or any organization in which exclusion would create misleading or incomplete financial statements.

FUND STRUCTURE

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

GOVERNMENTAL FUND TYPES & GOVERNMENT-WIDE ADJUSTMENT FUND TYPES

Governmental Fund Types

The General revenue Fund (Fund 0001) is the principle operating fund used to account for most of the state’s general activities. It accounts for all financial resources except those required to be accounted for in other funds. The Federal American Recovery and Reinvestment Act (ARRA) Fund (Fund 0369) is the operating fund used to account for federal stimulus program funds received by the state.

Long-Term Liability Adjustments

Long-Term Liabilities Adjustment fund (Fund 9997) will be used to convert governmental fund types’ debt from modified accrual to full accrual.

FIDUCIARY FUND TYPES

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Government fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation and unpaid Employee Compensable Leave. The activity will be recognized in these fund types.

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Encumbrance accounting is employed for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated, unless the agency has authority to retain unexpended balances for use in future periods.

ASSETS, LIABILITIES, AND FUND BALANCES/NET ASSETS

ASSETS

Cash and Cash Equivalents

Short-term investments with maturities of three months or less at the time of purchase are reported as cash equivalents.

Federal Receivables-Current

This represents federal grant reimbursements including indirect costs that have been earned but not received.

Loans and Contracts

General Revenue Loan Programs

LoanSTAR Program

The State Energy Conservation Office also offers loans from the oil overcharge LoanSTAR fund for energy related cost reduction projects. These low interest loans are made to state agencies and public institutions and are paid back with the funds saved from the reduction of energy costs.

Federally Funded Loan Programs

State Energy Program (SEP- CFDA 81.041)

The Comptroller State Energy Conservation Office receives an annual grant from the U.S. Department of Energy (DOE) to provide funds for the State Energy Program. These low interest loans enable the municipalities to maximize their energy efficiency through building retrofits. The loans are paid back with funds saved from the reduction of energy costs.

American Recovery and Reinvestment Act (ARRA-CFDA 81.041)

During 2009, the State Energy Conservation Office began offering a revolving loan program made available by the Department of Energy through the American Recovery and Reinvestment Act of 2009. This program is a low interest

loan program intended to assist governmental entities in financing their energy related cost reduction efforts utilizing the program's "Loan Assistance for Building Energy Efficiency and Retrofit Activities" established by the Notice of Loan Availability (NOLFA) issued in the Texas Register on October 30, 2009.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees' Compensable Leave

Employees' Compensable Leave Balances represent the liability that become "due" upon the occurrence of relevant events such as resignations, retirements, and uses of annual, overtime, compensatory or sick leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

FUND BALANCE/NET ASSETS

- Fund Balance Components – The fund balance amounts for governmental funds were reclassified in accordance with GASB 54. Amounts previously reported as reserved and unreserved are now reported as nonspendable, restricted, committed, assigned or unassigned.
 - Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
 - Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.
 - Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state's highest level of decision making authority.
 - Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
 - Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

INTERFUND ACTIVITIES AND BALANCES

The State Energy Conservation Office has the following types of transactions between funds:

Interfund loans are reported as current and non-current interfund receivables which represents the Loan STAR and American Recovery and Reinvestment Act Revolving Loan Programs and reimbursements from funds within the agency. Under the classified reporting method, individual assets typically are categorized as either current or noncurrent based on whether they are expected to generate or use cash within 12 months of the end of the fiscal period.

Interfund transaction refers to interactions with legally separate entities such as other state agencies and is restricted to external events.

The composition of the agency's Interfund activities and balances are presented in Note 12.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

NOTE 12: Interfund Activities and Transactions

As explained in Note 1 on Interfund Transactions and Balances there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as:

- Interfund Receivable or Interfund Payable
- Due From Other Agencies or Due To Other Agencies

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer.
