

FEBRUARY 2025

GLENN HEGAR • TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

A FIELD GUIDE TO THE TAXES OF TEXAS

Every year, the state of Texas collects billions of dollars in state taxes and fees, federal receipts and other sources of revenue. These funds are used to pay for all of the responsibilities of the state government, including the education of more than **5.5 million** public school students and the provision of health insurance for about **4.1 million** low-income Texans.

This guide provides an overview of the major Texas state taxes. Read on to:

- learn how major taxes have contributed to state revenue during the past 10 years;
- see revenue collections, estimates and allocations on one page; and
- connect to other, in-depth resources about state taxes and finances.

The data represented in this report are [available in accessible data form \(Excel\)](#).

State Tax Revenue By Source

FISCAL 2024

All Funds, Excluding Trusts

TOTAL = \$81,874,229,481

Texas' total tax revenue decreased by 0.3 percent in fiscal 2024, to \$81.9 billion. The decrease is largely attributable to a decline in natural gas production tax collections due to lower natural gas prices. Cigarette and tobacco taxes, hotel occupancy tax and other taxes also had slight declines over the prior year, but the majority of taxes showed moderate growth from fiscal 2023.

A FIELD GUIDE TO THE TAXES OF TEXAS

STATE TAX COLLECTIONS AND PERSONAL INCOME

FISCAL 2015-2024

Cumulative Growth Rates

Tax collections lagged growth in personal income in 2015 and 2016 due to franchise tax cuts and a slowdown in the oil and gas industries. Collections rebounded in 2018 due mostly to increased remittances from taxpayers in the oil and gas industries and rose moderately in 2019 as taxable spending in these industries plateaued.

Some tax categories saw record year-over-year declines in fiscal 2020 collections due to the COVID-19 pandemic and a collapse in oil prices. As the Texas economy began to recover and oil prices rebounded, tax collections in nearly every category grew in fiscal 2021. In fiscal 2022, state tax collections saw record growth due to a vigorous economic rebound from the pandemic, high energy prices and inflation. Growth returned to a more typical rate in fiscal 2023, then declined slightly in fiscal 2024 largely due to lower natural gas prices.

WHERE DOES TEXAS' TAX REVENUE COME FROM?

Texas relies on revenue generated by more than 30 different taxes to fund the functions of state government. Tax collections made up **45 percent** of state revenue in fiscal 2024.

- Texas imposes a 6.25 percent **sales and use tax** on sales, leases and rentals of goods as well as on taxable services such as telecommunications and amusement services.
- The state's **insurance taxes** include a number of premium taxes levied at rates ranging from 0.5 percent to 4.85 percent of gross premiums, as well as various maintenance taxes.
- Texas taxes **motor vehicle sales** at a rate of 6.25 percent of the sales price minus any trade-in allowance. **Motor vehicle rentals** are taxed at 6.25 percent or 10 percent of gross receipts depending on the length of the rental contract.
- Texas levies **alcoholic beverages taxes** on alcohol at the first sale or importation and on mixed beverages sold to consumers. Tax rates on malt beverages, wine, and liquor range from 19.4 cents per gallon to \$2.40 per gallon. There are two taxes on mixed beverages - an 8.25 percent sales tax and a 6.7 percent gross receipts tax.
- Texas' **motor fuel tax** rates vary depending on the type of fuel; the two most common, gasoline and diesel, are taxed at 20 cents per gallon.
- The state's **franchise tax** is imposed on taxable entities, such as corporations, banks, limited liability companies and certain partnerships, doing business in Texas. Of the millions of businesses across the state, only about 127,000 filers usually owe any franchise tax.
- The state's **tobacco taxes** are levied on cigarettes at a rate of \$1.41 per pack of 20; cigars at four rates based on weight, price, and ingredients of the product; and other tobacco products at a rate of \$1.22 per ounce.
- Texas' **severance taxes** are imposed on entities that extract nonrenewable natural resources such as oil or natural gas. They are levied at rates of 4.6 percent of market value for oil and condensate and 7.5 percent of market value for natural gas. Revenues from these taxes are highly variable depending on market conditions.
- The state levies three **utility taxes** on utility companies. The largest is the gas, electric, and water utility tax, levied at a rate of 0.581 percent to 1.997 percent of gross receipts, depending on the population of the city served.
- The state **hotel occupancy tax** is 6 percent of the room rate paid by an occupant. Local taxing entities may impose an additional hotel tax that is collected at the local level.

WHERE DOES TEXAS' TAX REVENUE GO?

For accounting and budgeting purposes, state revenue is deposited or transferred into various funds, with most going into the General Revenue Fund (GR) for appropriation by the Legislature. Some tax revenue, however, is deposited directly or transferred into special funds for specific purposes. Three of the state's most prominent special revenue funds are the State Highway Fund (SHF), the Property Tax Relief Fund (PTRF) and the Economic Stabilization Fund (ESF).

The SHF is used for the construction and maintenance of public roads. Historically, the primary revenues for this fund have been federal receipts, 75 percent of motor fuel tax net collections, most motor vehicle registration fees and, since fiscal 2015, one-half of 75 percent of oil production and natural gas production tax revenues exceeding fiscal 1987 collections in any fiscal year. Additionally, the first \$2.5 billion of state sales tax collections in excess of \$28 billion in a fiscal year, as well as 35 percent of motor vehicle sales and rental tax collections in excess of \$5 billion, are transferred to the SHF. In the 2026-27 biennium, the Comptroller's office estimates the SHF will receive **\$33.1 billion** from all sources.

State Highway Fund (SHF)

Economic Stabilization Fund (ESF)

	FISCAL 2024	FISCAL 2025	FISCAL 2026	FISCAL 2027
	ACTUAL	ESTIMATED	ESTIMATED	ESTIMATED
Ending Cash Balance	\$2,569,339,005	\$2,257,822,107	\$3,199,730,403	\$3,199,730,403
Ending Invested Balance	\$18,446,787,296	\$22,024,488,990	\$24,235,174,145	\$25,301,826,396
Total Ending Balance	\$21,016,126,301	\$24,282,311,097	\$27,434,904,548	\$28,501,556,799
ESF Cap	\$26,429,846,923	\$26,429,846,923	\$26,513,570,147	\$26,513,570,147

The PTRF is used along with GR and other funds to finance the state's K-12 public education system. The major revenue sources for this fund include the amount of franchise tax collections generated by its restructuring in fiscal 2008, and revenue from the \$1 increase in the cigarette tax rate implemented in fiscal 2007. Over the 2026-27 biennium, the PTRF will receive an estimated **\$5.3 billion** from all revenue sources.

The ESF, also known as the Rainy Day Fund, receives one-half of 75 percent of oil production and natural gas production tax revenues in any fiscal year that exceeds fiscal 1987 collections, and one-half of any unencumbered GR surplus remaining at the end of each biennium. The constitutional ESF cap is expected to be reached for the first time in its existence in fiscal 2026. A portion of the severance tax transfer in fiscal 2026 (an estimated \$307 million), as well as the full severance tax transfer in future years and interest earnings from the fund, will be retained in GR and available for general-purpose spending.

Want More Details?

The Comptroller's office publishes many reports that assist state government planning and decision making and account for state spending for the taxpayers of Texas. This guide highlights some of the current data from several of these reports and provides links to find more in-depth or updated data. The full reports can be found at comptroller.texas.gov/transparency/reports.

Net State Revenue By Source

FISCAL 2024 • ALL FUNDS, EXCLUDING TRUSTS

Total Net Revenue	\$181,117,485,998	-3.6%

Non-tax Revenue

The state's major non-tax revenue sources are federal income, fees and licenses, state health-related fees and rebates, state lottery proceeds, land income and proceeds from the state's investments.

Taxes That Texas Does Not Levy

Texas does not collect a state property tax. Property taxes are levied by local governmental entities, school districts and special purpose districts (see p. 24).

Texans pay federal income taxes but not state or local income taxes. Federal dollars contributed **33 percent** of total state net revenue in **fiscal 2024**.

SALES AND USE TAXES

ENACTED 1961

Sales and use taxes are the state's single largest source of tax revenue, raising about 58 cents of every state tax dollar in fiscal 2024. The sales tax generally is imposed on sales, rentals and leases of tangible personal property — physical goods or their electronic equivalent — and on sales of certain services, such as amusements, telephone services and the repair of tangible personal property.

Starting in fiscal 2018, a constitutional amendment requires up to \$2.5 billion to be transferred to the SHF from net sales tax revenue in excess of \$28 billion each fiscal year.

The 2019 passage of House Bill (HB) 1525 by the 86th Legislature, requiring online marketplace providers to collect taxes on sales made through their platforms, has resulted in additional sales tax collections of \$6.7 billion through fiscal 2024 and will bring in an estimated \$2 billion in fiscal 2025 and \$4.5 billion in 2026-27. This revenue is deposited outside GR to the Tax Reduction and Excellence in Education Fund.

MOTOR VEHICLE SALES AND RENTAL TAXES

ENACTED 1941

The motor vehicle sales and use tax is generally imposed on the retail sales price of motor vehicles sold in Texas and is the largest tax in this category. The motor vehicle rental tax is levied as a percentage of gross receipts derived from the rental of a vehicle, at a rate that varies depending on the length of the rental.

In November 2015, voters approved a constitutional amendment to deposit 35 percent of the net annual revenue from these taxes above \$5 billion to the SHF. The \$5 billion threshold was first reached in fiscal 2021 with a transfer of \$237 million, and the transfer is projected to total \$1.2 billion in the 2024-25 biennium and \$1.3 billion in 2026-27.

ENACTED 1907

The franchise or “margins” tax is the current version of one of the state’s oldest taxes, levied for the privilege of doing business in Texas. The tax due is based on an entity’s taxable margin.¹

In 2006, the Legislature made significant changes to the tax, including transitioning to the taxable margin as the sole base component and expanding the tax to limited partnerships, business trusts and other legal entities. These changes apply to reports due on or after Jan. 1, 2008.

In 2015, the Legislature voted to reduce franchise tax rates by 25 percent, which took effect in fiscal 2016.

Beginning in 2024, the no-tax-due revenue threshold was raised to \$2.47 million and taxable entities at or under that threshold are not required to file a tax report but still are responsible to file public information or ownership information reports under Sections 171.202 or 171.203, Tax Code.

INSURANCE TAXES

ENACTED 1907

Insurance taxes include premium taxes and more than a dozen maintenance taxes collected on behalf of the Texas Department of Insurance (TDI). Premium taxes are assessed on an insurer's written or received premiums and rates vary by type of insurance. Maintenance taxes are levied on insurance companies and self-insurance groups in amounts sufficient to fund the regulatory functions of TDI.

Most of the revenue from maintenance taxes is deposited into GR then allocated to the Texas Department of Insurance Operating Account.

FOOTNOTES

- ¹ Twenty-five percent is statutorily dedicated to public education funding and allocated to the Foundation School Account.

² Allocated to the Texas Department of Insurance Operating Account, except that the first \$3.05 million of fire or catastrophe maintenance taxes is deposited to the Texas Infrastructure Resiliency Fund.

³ Allocated to the Texas Department of Insurance Operating Account.

⁴ May not sum due to rounding.

⁵ Insurance premium tax rates are 1.75 percent for life, accident and
- health insurance, except that the first \$450,000 of life insurance or HMO premium is taxed at 0.875 percent; 1.6 percent for property and casualty insurance; 1.35 percent for title insurance; 0.5 percent for captive insurance companies; and 4.85 percent for unauthorized, surplus lines and independently procured insurance. Insurance maintenance tax rates are set annually by TDI.

⁶ Estimated initial distribution of total insurance premium tax revenue in fiscal 2027, as projected in the January 2025 *Tax Exemptions and Tax Incidence Report*.

HOTEL OCCUPANCY TAX

The hotel occupancy tax is imposed on a person who pays for a hotel room or space that costs \$15 or more per day.

FISCAL 2024 REVENUE: \$0.76 BILLION

RATE
6% of room rate paid by occupant

UTILITY TAXES

Utility taxes are a group of three related revenue sources, including the gas, electric and water utility tax; the public utility gross receipts assessment; and the gas utility pipeline tax.

FISCAL 2024 REVENUE: \$0.66 BILLION

TAX	RATE
Gas, electric and water utility	Cities 1,001-2,499 population – 0.581% of gross receipts Cities 2,500-9,999 population – 1.070% of gross receipts Cities ≥10,000 population – 1.997% of gross receipts
Public utility gross receipts assessment	One-sixth of 1% of gross receipts
Gas utility pipeline	0.5% of gross income of gas utilities

OTHER TAXES

Other taxes include the cement tax, oil and gas well servicing tax, occupation tax, combative sports admissions tax, coin-operated amusement machine tax, unemployment assessments and the tax refunds to employers of recipients of Temporary Assistance for Needy Families.

FISCAL 2024 REVENUE: \$0.31 BILLION

LOCAL PROPERTY TAXES

ENACTED 1837

Property taxes are levied by counties, cities, school districts and special purpose districts such as community colleges and public hospitals. These local entities can levy a property tax by adopting a tax rate with two components: a maintenance and operations (M&O) rate, and an interest and sinking (I&S) rate (also referred to as debt service). A separate entity called a county appraisal district is responsible for determining the market value of each property within each county.

While the state of Texas has not levied a property tax since 1980, local property values have a direct impact on the state budget due to the nature of the school finance system.

	M&O	I&S
School Districts	\$0.731	\$0.286
Cities	\$0.380	\$0.150
Counties (General Fund)	\$0.271	\$0.040

FOOTNOTES

- ¹ The figures presented are calculated totals for each tax year based on data self-reported to the Comptroller's office and not actual total property tax levies. The Comptroller's office does not guarantee the accuracy of self-reported information.

² Levies for tax years 2020-2023 as of January 2025.

³ Average property tax rates are weighted by calculated property tax levies and include only entities that report levying the respective tax to the Comptroller's office.

⁴ Rate limits represent the general rule applied to nearly all applicable entities. There may be cases, however, in which some entities can exceed this limit or are subject to a more restrictive tax rate limit.

⁵ Tax rate compression began in tax year 2019 as the result of HB 3, 86th Legislature, Regular Session. The maximum M&O tax rate for a school district is the district's maximum compressed rate, as calculated by the Texas Education Agency based on estimated property value
- growth and provided to the district each August, plus up to an additional 17 cents.

⁶ Education Code Section 45.0031, sometimes referred to as the "50-cent test," requires school districts to demonstrate to the Attorney General's office their ability to pay the principal and interest on any proposed bonds, as well as all outstanding bonds, from a tax rate not to exceed 50 cents.

⁷ Tax Code Section 302.001 restricts Type B general law municipalities to an annual property tax rate of no more than 25 cents. Texas Constitution Article XI, Sections 4 and 5, restrict other general law and home-rule municipalities based on population size.

⁸ Article VIII, Section 9, Texas Constitution.

⁹ Article VIII, Section 1-a, Texas Constitution. The first \$3,000 of residential homesteads is exempt from this levy.

LOCAL SALES AND USE TAXES

ENACTED 1967

Like state sales tax, local sales tax is imposed on sales, rentals and leases of tangible personal property – physical goods or their electronic equivalent – and on sales of certain services, such as amusement, information and telephone services, as well as the repair of tangible personal property.

Local sales tax is collected by retailers across the state and remitted to the Comptroller's office along with state sales tax. The Comptroller then distributes the local portion of sales tax collections to local governmental entities each month.

The passage of HB 2153 by the 86th Legislature provided a single local tax rate for remote sellers. Remote sellers with total Texas revenue of \$500,000 or more are required to collect and remit local use taxes and may choose to collect the single local tax rate or the local tax based on the total local tax rate in effect at the destination. The single local tax rate for 2025 is 1.75 percent.

BUDGETING AND APPROPRIATIONS

The Texas Constitution requires the Comptroller's office to estimate the amount of revenue available to the Legislature for general-purpose spending in each biennium. The Biennial Revenue Estimate (BRE) is published just before the start of each regular legislative session and revised as necessary for each special session. The state constitution requires legislators to approve a balanced budget for state spending that may not become law until the Comptroller certifies that it is within available revenue.

General Appropriations Act — “The Budget”

The General Appropriations Act is the Texas state government's two-year budget.

State budget writers are required to limit spending growth from the current budget to the next. Under the constitutional spending limit, the growth rate of spending from tax revenue not dedicated by the state constitution must not exceed the estimated growth of the state's economy, which is determined by the Legislative Budget Board (LBB). Only majority votes by both the House and Senate can override the spending limit. A second statutory spending cap, created by Senate Bill 1336, 87th Legislature, Regular Session, limits the growth of consolidated general revenue appropriations to the estimated growth of the state's economy and requires a vote of three-fifths of each legislative chamber to exceed. For the 2026-27 biennium, the LBB approved an 8.93 percent cap for both spending limits.

State Spending Decisions

In recent years, the majority of state expenditures have gone toward:

- health and human services programs such as Medicaid, adult and child protection and assistance to the disabled and those in poverty;
- public education spending that supplements local property tax revenues;
- transportation, road and bridge maintenance and construction, and airports;
- higher education;
- law enforcement, courts and prisons;
- property tax relief;
- state government operations; and
- natural resources and state parks.

THE BUDGET PROCESS

IN BRIEF

Each state agency prepares a detailed legislative appropriations request (LAR) itemizing the funding it seeks for the upcoming biennium.

After several reviews and public hearings, the LBB uses the LARs to draft the general appropriations bill, which then is submitted to the Legislature.

The Governor also submits an independently developed budget to the Legislature.

Prior to the legislative session, the Comptroller's office issues the **Biennial Revenue Estimate**, outlining funds to become available from taxes and other revenue sources for the biennium. Following the regular legislative session, the Comptroller's office reevaluates this estimate in light of changing economic conditions, as well as the fiscal impacts of any legislative changes. A **Certification Revenue Estimate** is published early in the new biennium that provides lawmakers with an updated picture of the state's expected fiscal condition during the two-year budget cycle.

Budget Approval Steps

1. The Texas House Committee on Appropriations and the Senate Committee on Finance simultaneously deliberate on their general appropriations bills. After the committees pass their versions, the bill is considered by one full chamber and then passed to the other for consideration where it is amended, approved and passed back to the originating chamber.
2. A conference committee of both House and Senate members works to combine the two versions into the final General Appropriations Act, which then is voted on by both chambers.
3. Once approved, it goes to the Comptroller's office for final certification that the bill is within available revenue.
4. The last step is the Governor's signature. Once signed, the bill becomes law, allocating the state's funds for two more years. The Governor may veto individual spending items within the budget.

Monthly Revenue Watch

Net state revenue collections by source are posted monthly to the Comptroller’s website.

Texas Taxes and Tax Publication webpages

The Comptroller’s office maintains extensive online resources on more than 60 taxes, fees and assessments.

State Tax Automated Research (STAR) System

An online policy resource center facilitating research on Texas tax law and tax policy.

Texas Tax Code

Select “Tax Code” followed by the desired chapter and section to see specific statutes.

Revenue and Expenditures Dashboard

A powerful visualization tool providing a look into state government finance. Explore tabular data, charts and graphs through multiple viewing options.

Annual Comprehensive Financial Report

This report presents information on state assets, liabilities and revenue and expenditure details for all state funds, including those held outside the Texas Treasury (February 2025).

Texas Annual Cash Report

This report presents the state’s financial condition; details revenues and expenditures on a cash basis; and shows revenue and expenditure details for all funds in the Texas Treasury (November 2024).

Certification Revenue Estimate

The Comptroller forecasts the amount of revenue available for spending during the current biennium based on the anticipated condition of the economy, incorporating changes to taxes and fees adopted by the Legislature during the previous session (October 2023).

Tax Exemptions & Tax Incidence

A legislatively required report estimating the value of exemptions, exclusions, discounts, deductions, special accounting methods, credits, refunds and special appraisals available under Texas’ major state taxes and school property taxes (January 2025).

Sources of Revenue:
A History of State Taxes and Fees in Texas

Providing a historical perspective, this guide reports on the current status of state revenue sources (January 2025).

Biennial Revenue Estimate

The Comptroller forecasts the amount of revenue available for spending each biennium, which legislators then use to craft the state’s budget (January 2025).

Fiscal Size-Up

The Legislative Budget Board produces this biennial report: a single source of information on the budget, fiscal actions of each Legislature and the state’s fiscal condition (July 2024).

This report contains estimates and projections from the Comptroller's *2026-27 Biennial Revenue Estimate*, based on available information, assumptions and estimates as of the date of the forecast. Assumptions involve judgments about future economic and market conditions and events that are difficult to predict. Actual results could differ from those predicted, and the difference could be material.
